

Roger Spitz Headlines Rulebreaker Future Congress With Keynote on Future of Artificial Intelligence and Decision-Making

Rulebreaker Future Congress Spotlights Roger Spitz, a Staple Keynote Speaker at Leading Technology & Innovation Global Summits

SAN FRANCISCO, CA, UNITED STATES, August 20, 2025 /EINPresswire.com/ -- Visionary futurist and bestselling author [Roger Spitz](#) delivered a groundbreaking opening keynote at the Rulebreaker Future Congress 2025 in Leipzig, Germany. Hosted by Europe's largest futures think tank, 2b AHEAD, the event convened global leaders to explore transformative themes like quantum computing, artificial general intelligence, and robotics.

Roger Spitz Opening Keynote - The Future Congress

“

I had the pleasure to hear Roger Spitz, one of the world's top futurists. He's able to talk about the future in a compelling way and also provides major insights... He delivers fantastic keynotes.”

Athanasopoulos, 2B Ahead -
Head of Trends & Foresight*

Spitz's keynote talk, titled “The Future of AI & Strategic Decision-Making in an Era of Systemic Disruption,” introduced his bold lens on AI through “Techistentialism,” which explores how artificial intelligence is fundamentally reshaping human agency and decision-making. He challenged the audience to reclaim intelligence to remain relevant as machines encroach upon the decision-making value chain.

ROGER SPITZ'S FUTURE CONGRESS KEYNOTE THEMES
“Today, I had the pleasure to hear a keynote by Roger Spitz, one of the world's top futurists. He's not only able to talk about the future in a compelling way, but also provides

major insights, like that it's not really possible to predict the future, but to have a horizon where you can locate what is certain, what is uncertain, and that the role of a futurist is to navigate that uncertainty. I highly recommend Roger Spitz as a keynote speaker, he delivers fantastically.” -

Harald Köpping Athanasopoulos, 2B
Ahead - Head of Trends & Foresight

In his keynote, Spitz illustrated how artificial intelligence is rapidly advancing into domains once considered exclusively human. While we've long excelled at decision-making, our advantage is waning. As Roger Spitz explores through his breakthrough concept of "Techistentialism," our very existence and decision-making are being fundamentally reshaped by technology.

Automation, cognification, decentralization, digitization, and virtualization are altering every aspect of our lives. How can humans enhance their capabilities to remain relevant as AI advances? What higher-level functions are machines now capable of, and how quickly are they learning? Attendees left Spitz's keynote with actionable tools and a mindset shift to thrive in a future where human cognition and AI are inseparable.

A staple keynote speaker at the world's most influential innovation lineups, Roger Spitz has delivered flagship keynote talks at prestigious Technology Conferences around the globe.
