COVID-19 Scenario:

The pandemic had a moderate impact on the global medical professional liability insurance market due to the presence of lockdowns in various countries across the globe.

In some cases, the outbreak of the COVID-19 pandemic remarkably expanded the growing reliance on technology among people. Internet penetration surged exponentially during the pandemic, and hence several medical professional liability insurances were available at affordable rates.

In addition, there was a growing trend of automation of claims underwriting processes in the medical professional liability insurance market.

Furthermore, persistent technological advancements prevalent in the field of insurance are expected to surge adoption of medical professional liability insurance among doctors.
