

Top Office Chairs in Australia Highlighted for 2025

Ergonomic and budget-friendly options continue to shape Australian workplaces

AUSTRALIA, August 21, 2025 /EINPresswire.com/ -- A range of office chairs have been identified as notable options for Australian workplaces in 2025, reflecting ongoing trends in ergonomics, affordability, and design. With hybrid and remote work continuing to shape new workspace needs, Australians are increasingly prioritising posture support, adjustability, and materials suited to warmer climates.

Chairs highlighted for 2025 include:

ErgoTune Supreme – Known for its wide range of adjustment features, including headrest, lumbar support, and 5D armrests. Designed with breathable mesh and priced under \$1,000, it offers versatility without entering the luxury market.

Sihoo M57 – A budget-conscious model typically priced under \$400. It includes mesh ventilation, adjustable lumbar support, 3D armrests, and a supportive headrest, making it a strong choice for students and home office set-ups.

Herman Miller Aeron – One of the most established ergonomic office chairs worldwide. Featuring Pellicle mesh for airflow and three available sizes for a tailored fit, it remains a premium benchmark in office seating, retailing above \$2,000.

[JasonL Falcon 2.0 Ergonomic Mesh Chair](#) – Developed by Australian furniture brand JasonL, this mid-range model balances sustainability and ergonomic design. It includes 4D armrests, adjustable lumbar support, a seat slide, and a synchro-tilt recline with multiple lock positions. The breathable mesh back suits Australia's warmer climate, and its GREENGUARD certification ensures low emissions. Backed by a 10-year warranty and priced around \$449, it delivers long-term durability at an accessible price point.

Steelcase Leap V2 – Recognised for its LiveBack® technology that mimics spinal movement. The [office chair](#)'s seat depth, recline settings, lumbar positioning, and armrests are all highly adjustable, making it suitable for professionals who spend long hours at a desk.

Steelcase Gesture – Designed with modern device use in mind, the Gesture's armrests move in

multiple directions to accommodate transitions between laptops, tablets, and phones.

Artiss Ergo Mesh – A low-cost option usually under \$200. It provides a breathable mesh back, adjustable lumbar support, and a cushioned seat, with swivel and tilt functions included for everyday usability.

Humanscale Freedom – A minimalist premium chair that replaces multiple levers with a self-adjusting recline mechanism, automatically adapting to the sitter's body weight.

Secretlab Titan Evo 2022 – Originally designed as a gaming chair, this model has become popular in hybrid office environments. It includes four-way lumbar support, a reclining backrest, and a memory foam head pillow, appealing to users who combine work and gaming.

SIDIZ T50 – A mid-range option offering 4D armrests, lumbar adjustment, tilt functionality, and mesh ventilation. The brand has grown in popularity in Australia for providing ergonomic benefits without premium-level pricing.

As Australian workplaces continue adapting to flexible and hybrid arrangements, ergonomic seating is expected to remain a priority for both businesses and individuals seeking to support wellbeing and productivity.
