Inpatient Services Global Market Report 2025

What Is The Forecast For The [Inpatient Services Market](#) From 2024 To 2029?

The size of the inpatient services market has been progressively expanding over recent years. It is projected to rise from \$2,003.83 billion in 2024 to \$2,069.37 billion in 2025, experiencing a compound annual growth rate (CAGR) of 3.3%. The growth during the historical period is linked to factors such as an aging population, heightened occurrence of chronic diseases, escalating healthcare expenses, widespread insurance coverage, and increasing need for specialized healthcare procedures.

*The Business Research
Company*

Anticipated to witness stable expansion in the coming few years, the market size of inpatient services is set to reach

\$2,326.38 billion in 2029, registering a compound annual growth rate (CAGR) of 3.0%. The growth during this period is likely due to increasing mental health consciousness, the surge in personalized medicine, implementation of artificial intelligence and data analytics in hospitals, evolution of hybrid care models, and an augmented emphasis on infection control and patient safety. Key trends for this forecast period encompass the advent of artificial intelligence-aided clinical decision support, monitoring of patients remotely, surgeries aided by robots, the enhancement of electronic health records, and implementation of real-time location systems.

What Are The Core Growth Drivers Shaping The Future Of The Inpatient Services Market?

The rise in cardiovascular diseases, a group of disorders affecting the heart and blood vessels such as coronary artery disease, heart failure, arrhythmias, and strokes, is likely to fuel the expansion of the inpatient services market. This surge in cardiovascular ailments can largely be attributed to sedentary lifestyles that lead to obesity, poor cardiac health, an elevated risk of hypertension and diabetes. Such conditions necessitate the need for inpatient services as patients require hospitalization for medical procedures, continuous surveillance, and emergency medical attention. This, in turn, increases the demand for bed space, specialized healthcare professionals, and sophisticated treatment equipment. For example, the American Heart Association reported in January 2025, that there were 131,454 deaths primarily due to high blood pressure in 2022, and in January 2024, they reported 124,508 such deaths for 2021. Thus, the escalating prevalence of cardiovascular diseases is a significant driving force propelling the upswing in the inpatient services market.

Which Companies Are Currently Leading In The Inpatient Services Market?

Major players in the Inpatient Services Global Market Report 2025 include:

- Kaiser Permanente
- HCA Healthcare
- Ascension Health
- Fresenius Medical Care
- Tenet Healthcare Corporation
- Sutter Health
- Mayo Clinic
- Cleveland Clinic
- Universal Health Services Inc.
- Community Health Systems (CHS)

What Are The Top Trends In The Inpatient Services Industry?

In an effort to streamline clinical tasks and lessen the burden on medical staff, major enterprises in the inpatient services sector are concentrating on innovative technologies such as inpatient television integration for remote healthcare delivery. This technology transforms in-room televisions into versatile care tools for remote monitoring, patient consultations, education, and discharge planning, thereby improving the versatility of care team workflows. To illustrate this, in November 2023, Oneview Healthcare, a healthcare technology company from Ireland, unveiled an updated version of their Care Experience Platform (CXP), which includes a new Virtual Care API. This enhancement allows hospitals to leverage Oneview's patient television system for virtual inpatient care including remote monitoring and nursing assistance. The new Virtual Care API facilitates flawless integration with third-party virtual care providers, allowing healthcare professionals to start telehealth sessions directly from the electronic medical record (EMR). It supports both pre-scheduled and spontaneous video consultations, enhancing accessibility and

the efficiency of care delivery.

Comparative Analysis Of Leading [Inpatient Services Market Segments](#)

The inpatient services market covered in this report is segmented –

- 1) By Service: Acute Care Services, Chronic Disease Management, Rehabilitation Services, Psychiatric Services, Palliative Care
- 2) By Treatment: Cardiovascular Disorders, Cancer, Musculoskeletal Diseases, Emergency And Trauma, Respiratory Disorder, Gastroenterology, Central Nervous System Disorders, Pregnancy And Postpartum Care, Urology And Nephrology Disorders, Other Treatments
- 3) By Specialty: Cardiology, Oncology, Orthopedic, Neurology, General Medicine
- 4) By Ownership: Publicly Or Government-Owned, Not-For-Profit Privately Owned, For-Profit Privately Owned
- 5) By End User: Patients, Healthcare Providers, Other End Users

Subsegments:

- 1) By Acute Care Services: Emergency Care, Intensive Care Unit (ICU) Services, Surgical Care, Trauma Care, Post-Operative Care
- 2) By Chronic Disease Management: Diabetes Management, Cardiovascular Disease Management, Chronic Respiratory Disease Care, Renal Disease Management, Cancer Care Management
