Based on region, North America held the largest share in 2021, contributing to nearly two-fifths of the global communication intelligence market share, and is projected to maintain its dominant share in terms of revenue in 2031. However, the Asia-Pacific region is expected to manifest the fastest CAGR of 6.6% during the forecast period.

Based on platform, the ground segment accounted for the highest share in 2021, holding nearly two-fifths of the global communication intelligence market, and is expected to continue its leadership status during the forecast period. However, the airborne segment is estimated to grow at the highest CAGR of 6.7% during the forecast period.

Based on mobility, the fixed segment accounted for the highest share in 2021, contributing to more than three-fifths of the global communication intelligence market, and is expected to maintain its lead in terms of revenue during the forecast period. However, the man-portable segment is expected to manifest the highest CAGR of 6.4% from 2022 to 2031.

COVID-19 Scenario

 The demand for military equipment over couple of years is unlikely to be affected because money for the defense projects were set aside before the outbreak of the COVID-19 pandemic as they are vital to national defence. As a result, the market for COMINT systems is expected to expand in the future years.

 Moreover, favorable long-term impacts on the market are likely to be witnessed owing to the increasing defense spending by government across the globe.
