Launched in 2014, the CommunityVotes Awards are a locally driven recognition platform that empowers community members - residents of a city, town, or association - to nominate and vote for the businesses, services, and professionals who positively impact their daily lives. CommunityVotes operates independently, giving voice to each community's residents to highlight their favorite local businesses and services. Its core mission is to let community members recognize and celebrate the outstanding entities that contribute to a better local life.

Selection as a CommunityVotes award winner indicates the business or organization is considered by their community to provide superior quality and service over other competitors in the region. The CommunityVotes award announcements are widely anticipated, and locals refer back to them throughout the year when choosing which businesses to patronize.
