

Subsidence Jewelry by Akhil Mane Wins Iron A' Design Award in Jewelry Design Category

Akhil Mane's Innovative Jewelry Collection, Subsidence, Receives Prestigious International Recognition for Its Unique Approach to Sustainable Design

COMO, CO, ITALY, August 22, 2025 /EINPresswire.com/ -- The A' Design Award, a highly respected and well-recognized award in the field of [jewelry](#) design, has announced Subsidence Jewelry by [Akhil Mane](#) as a winner of the Iron A' Design Award in the Jewelry Design category. This prestigious recognition highlights the significance of Subsidence Jewelry within the jewelry industry and design community, acknowledging its innovative approach to sustainable design and its ability to raise awareness about environmental issues.

Subsidence Jewelry

Subsidence Jewelry's unique design and powerful message resonate with both industry professionals and consumers alike. By addressing the pressing issue of land subsidence through wearable art, Akhil Mane's collection aligns with the growing demand for sustainable and meaningful jewelry. This award not only validates the importance of Subsidence Jewelry's concept but also underscores its potential to influence industry practices and inspire a new generation of environmentally conscious consumers.

Crafted from ethically sourced, recyclable metals, Subsidence Jewelry features an uneven, fractured copper exterior that mimics the Earth's cracked surface, while brass layers symbolize the impact reaching the core. This ergonomic design, reminiscent of geological formations, visually represents the varying soil strata, serving as a stark reminder of human activity's

consequences on the environment. Each piece in the collection fosters a deeper connection with the environmental challenges facing our planet, empowering wearers to become advocates for a more sustainable future.

The Iron A' Design Award for Subsidence Jewelry serves as a catalyst for Akhil Mane to continue exploring innovative and sustainable design solutions within the jewelry industry. This recognition not only validates the collection's unique approach but also inspires the brand to further push the boundaries of eco-conscious jewelry design. By setting a new standard for sustainable luxury, Subsidence Jewelry has the potential to influence industry practices and encourage a more responsible approach to jewelry production and consumption.

Subsidence Jewelry was designed by Akhil Mane, a talented design student with a strong interest in exploring the emotional impact design can have on users.

About Akhil Mane

Akhil Mane is a design student from India who believes in the power of design to connect with people on a deeper, emotional level. With a strong interest in exploring the impact design can have on users, Akhil seeks to create experiences that resonate not only with the user's mind but also evoke lasting emotional values. Through his work, he aims to weave together imagination and emotional resonance, transcending mere functionality to create truly meaningful designs.

About National Institute of Design

The National Institute of Design (NID) is an autonomous institution under the aegis of the Ministry of Commerce and Industry, Government of India. Declared an 'Institution of National Importance' by the Act of Parliament, NID is a leading design school that fosters innovation, creativity, and excellence in design education. With a focus on interdisciplinary learning and a user-centric approach, NID nurtures talented designers who are equipped to address the challenges of a rapidly evolving world.

About A' Design Award

The Iron A' Design Award is a notable recognition granted to well-designed products, projects, and services that meet rigorous professional and industrial standards set by the A' [Design Awards](#). Recipients of this award are acknowledged for their practical innovations and contributions to their respective fields, providing solutions that improve quality of life and foster positive change. The Iron A' Design Award designation showcases the skill, specialization, and creative capacity of the designers, highlighting their ability to address real-world challenges through thoughtful and innovative design in the Jewelry Design category. The award criteria include innovative concept, artistic expression, craftsmanship excellence, material selection, wearability and comfort, design aesthetics, functional efficiency, sustainability and ethical sourcing, cultural relevance, commercial viability, uniqueness and originality, technical proficiency, visual impact, emotional engagement, integration of precious stones, adaptability to trends, durability and longevity, packaging design, user experience, and brand identity.

consistency.

About A' Design Award

The A' Design Award is an international and juried design competition organized in all industries, welcoming entries from all countries. Established in 2008, the A' Design Award is now in its 17th year and has become one of the world's most influential design awards. The competition recognizes and promotes superior products and projects that advance and benefit society, with the ultimate aim of creating a better world through the power of good design. By showcasing pioneering designs on a global stage and honoring the creative minds behind these innovations, the A' Design Award drives forward a cycle of inspiration and advancement in the field of jewelry design.
