Building Your Bridge: From Compliance to Excellence (14 Sep 8:00am-4:30pm)

When talking about moving from a "have to" to a "want to" culture, from compliance to culture, or from good to great, it's much more productive when visual models are available that allow leaders to identify precisely where they are, where they're trying to go and what to focus on to get there. Since 2008, the Bridge to Safety Excellence model has been a visual representation that thousands of organizations have leveraged to convey the precise elements to be addressed to close the gap between compliance and culture - and discover where they are on the path to sustainable excellence. Explore where you and your organization are within this model. In this session, based on the author's bestselling 2023 book, you'll learn how to address each component, step by step.

Safety Huddle: Burbank, Baue & Bali – Three Unforgettable Safety Stories (15 Sep 10-10:20am)

A magazine lying on a bedroom floor, a treadmill run with a view of the Caspian Sea, and a sunrise trek to summit Mt. Agung—these three unforgettable experiences, along with their accompanying stories, will challenge you to rethink safety both professionally and personally and on and off the job. Most importantly, they will prompt a reevaluation of how success is currently defined and how excellence will be perceived by the year 2030.

Shared Ownership: Engaging Subcultures for Safety Excellence (15 Sep 1:00-2:00pm)

In this engaging session based on his new book, "Shared Ownership: Engaging the Subcultures,"

Shawn Galloway will explore how to develop the final step in true employee engagement. He'll delve into the art of fostering exceptional engagement and a sense of shared ownership among the remarkable individuals you lead. Great engagement is not an accident. It requires deliberate planning, sustained effort and continuous nurturing, especially in large and established organizations where the initial momentum may have faded. Discover how supporting your frontline supervisors – those in direct contact with the workforce – is critical in igniting enthusiasm and commitment throughout your organization.
