YEX to List Stablecoins USDQ and EURQ on August 26 2025

## □What are USDQ and EURQ?

EURQ and USDQ are euro- and US dollar-denominated stablecoins issued by Quantoz, an electronic money institution licensed by the Dutch Central Bank. Both stablecoins are designed to support global commerce with the safeguards of European regulation and full compliance with the EU's MiCA framework.

Backed 1:1 by reserves held in Tier 1 European banks and government bonds, EURQ and USDQ offer transparency through independent auditing and segregated accounts. They enable instant settlement, cross-border payments, global payroll, and collateral use, with availability across multiple blockchain ecosystems, OTC desks, trading platforms, and DeFi protocols.
