

Synchrocure Expands Call for Entrepreneurs to Join Its Nationwide Franchise Program

Franchise opportunities available now in Ohio and select U.S. territories

OH, UNITED STATES, August 29, 2025 /EINPresswire.com/ -- Synchrocure, LLC, a trusted leader in delivering innovative medical devices and solutions since 2005, is inviting motivated entrepreneurs, sales professionals, and healthcare-focused business leaders to explore its nationwide franchise program. With a proven track record in the healthcare sector and a mission to improve patient outcomes, Synchrocure is opening the door for business owners to enter one of the most stable and fast-growing industries in the world.

The medical device industry currently represents a \$500 billion market and is projected to exceed \$650 billion by 2032. In the U.S., the healthcare sector accounts for 17.3% of GDP, creating unparalleled opportunities for individuals seeking recession-resistant businesses.

“

We built this franchise program to give business-minded people a direct path into a meaningful, profitable sector”

Reza Yazdian, J.D.

“Our franchisees don’t have to reinvent the wheel – we give them the products, training, and operational support so they can focus on building strong client relationships,” said Reza Yazdian, J.D., Principal Managing Partner of

Synchrocure.

Unlike many franchise opportunities that require years to gain traction, Synchrocure’s model is designed to help owners enter the market quickly by providing:

- Exclusive Access to Leading Medical Devices – Franchisees receive a curated portfolio of innovative, high-quality products from trusted manufacturers.
- Multiple Revenue Streams – Diverse product lines allow flexibility and adaptability in a

competitive market.

- Turnkey Back-Office Support – From supplier negotiations to logistics, Synchrocare manages the operational details so franchisees can focus on growth.
- Comprehensive Training & Ongoing Education – A self-paced curriculum covering anatomy, medical technology, and sales techniques ensures franchisees enter the market with confidence.

Healthcare providers are actively seeking innovative, cost-effective technologies that improve patient care and streamline operations. Synchrocare's products help meet this demand, positioning franchise owners as trusted partners to hospitals, clinics, and private practices.

By joining Synchrocare, franchisees step into a space where they can make a real difference – delivering products that directly impact lives, from diagnostic equipment to specialized treatment devices.

Prime territories across the United States – including multiple available markets in Ohio – are currently open for development. Early franchisees have the advantage of securing their preferred regions, with the flexibility to target markets based on local healthcare needs and business potential.

"We've created a model that allows people from diverse professional experiences to succeed, provided they have the drive to build relationships and grow their business," Yazdian added.

With healthcare demand continuing to rise, Synchrocare offers a chance to combine business ownership with a meaningful purpose – all within a framework designed for long-term success.
