FundMore and FCT Launch the First Seamless Integration for Mortgage Processing

FundMore has teamed up with FCT to unveil the country's first direct Loan Origination System integration for FCT's Managed Mortgage Solutions program.

OTTAWA, CANADA, September 3, 2025 /EINPresswire.com/ -- FundMore, the award-winning AI-powered loan origination platform, has teamed up with FCT, Canada's leading title insurance and real estate technology provider, to unveil the country's first direct Loan Origination System (LOS) integration for FCT's Managed Mortgage Solutions (MMS) program.

With this integration, FundMore becomes the first LOS in Canada to directly connect with FCT's MMS program, unlocking a seamless funding and closing experience for lenders. Deals can now be instructed to FCT directly from within the FundMore LOS, eliminating the need for manual uploads. By unifying the funding workflow, this integration reduces compliance risk, accelerates processing times, and enhances team productivity—all within one ecosystem. Already trusted to process over $30 billion in mortgages, FundMore continues to set the standard for speed, scale, and simplicity in Canadian financial technology.

“This integration goes beyond functionality; it's a clear signal that the future of lending is here,” said Chris Grimes, CEO of FundMore. “Lenders can now operate entirely within the LOS, eliminating the need for manual workarounds or platform switching.”

“This collaboration with FundMore empowers lenders to simplify the mortgage process with ease, accuracy, and a new standard of digital innovation,” said Kate Wybrow, Vice President of Lender Services at FCT.

This integration marks a significant leap forward for Canadian lenders as mortgage instructions can now be sent directly from FundMore's LOS to FCT, creating a seamless, fully digital workflow for funding and closing. Together, FundMore and FCT are eliminating barriers from the funding process, helping lenders close faster, stay compliant, and deliver superior borrower experiences.

About FundMore
FundMore offers a fully automated LOS that enables lenders to process applications quickly and accurately. Features include integrated credit tools, automated property valuations, secure e-signature workflows, and intelligent document management. FundMore works closely with top

Canadian lenders and technology providers to continuously enhance the borrower and lender experience—delivering results at scale, with less risk. Learn more at www.fundmore.ai
