Amelia, originally from Atlanta, Georgia, is pursuing a degree in neuroscience with plans to attend medical school and ultimately become an OB/GYN. Her interest in the brain and medicine began in middle school and has grown into a passion for advancing healthcare and improving patient outcomes, particularly in underserved communities. Along her journey, Amelia has faced obstacles but continued to achieve at a high academic level, demonstrating resilience, persistence, and leadership.

In her winning essay, Amelia reflected: “Success is not defined by one moment or achievement. Instead, it comes from how you face challenges and learn from them. Every step in my journey has been about persistence, problem-solving, and continuing to move forward, just as my parents taught me... I hope to use my knowledge and skills to improve healthcare outcomes and inspire others to overcome obstacles in their own lives.”

“We are delighted to recognize Amelia with this scholarship,” said Holly Rollins, Director of the Ted & Holly Rollins Scholarship Organization. “Her resilience, compassion, and commitment to serving others reflect the very heart of this award. We are confident she will make a lasting impact in her community and beyond.”

Amelia shared her gratitude, noting that the scholarship not only relieves the financial burden of college but also allows her to focus more fully on her studies and long-term goals.

The Ted & Holly Rollins Scholarship Organization remains committed to investing in the next generation of leaders, helping students like Amelia pursue their education and create meaningful change in the world.

In October 2021, the Ted & Holly Rollins Scholarship Organization was formed by his wife Holly to provide a biannual scholarship, open to students nationally. This scholarship honors the late Ted Rollins and his wife Holly Rollins' vision to provide scholarship funding to aspiring students, many of whom are disadvantaged, yet excel academically despite their obstacles.
