

Pre-Orders Opened on September 2 for 'Evangelion Mass Production Model (Concept by Josh Nizzi)' Statue

Prime 1 Studio announced the "Evangelion Mass Production Model (Concept by Josh Nizzi)" Statue. Pre-orders began Sep. 2, 2025 (JST); release set for Mar. 2027.

ASAKUSA, TAITO-KU, TOKYO, JAPAN, September 3, 2025 /EINPresswire.com/ -- The "Concept by Josh Nizzi" series reinterprets well-known characters with original design elements. From this lineup comes the Mass Production Evangelion.

The Mass Production Evangelion units appear in "Neon Genesis Evangelion: The End of Evangelion". This statue reflects their distinctive, unsettling design through concept work by Josh Nizzi. The sculpt preserves the organic form of the Eva units while adding details such as panel lines and internal mechanisms. The color scheme features a white base with metallic silver tones and yellow accents. The included sword is finished in a purple hue.

The base depicts a scene with a collapsed truss bridge, damaged architecture, and EVA-02 impaled within a red sea.

The statue comes with two additional accessories: large wings and a replica of the Spear of Longinus. An open-mouth head is also included for alternate display options.

The DX Bonus Version includes an exclusive head with an extended tongue.
