Cement Tiles Market Set to Reach $47.55 Billion by 2029

The Business Research Company's Cement Tiles Global Market Report 2025 – Market Size, Trends, And Forecast 2025-2034

The Business Research Company

LONDON, GREATER LONDON, UNITED KINGDOM, August 29, 2025 /EINPresswire.com/ -- What Is The Expected Cagr For The [Cement Tiles Market Through 2025?](https://www.thebusinessresearchcompany.com/report/cement-tiles-global-market-report)
In recent years, the cement tiles market has shown significant growth. Its size is expected to expand from $32.55 billion in 2024 to $35.21 billion in 2025, marking a compound annual growth rate (CAGR) of 8.2%. This growth observed in the past can be traced back to factors like an increase in urban housing development, the rising trend of decorative flooring, heightened renovation activities in residential areas, the need for durable and low-maintenance flooring, and also the growth of the hospitality and commercial real estate sectors.

Anticipated robust expansion in the cement tiles market will see its worth elevate to $47.56 billion by 2029, with a 7.8% compound annual growth rate (CAGR). This predicted progression over the forecast period is due to factors such as the upsurge in tile production, a trend towards eco-conscious construction, the implementation of automation in tile manufacturing, a surge in the demand for green building methods, and heightened awareness of eco-friendly building materials. Key trends shaping the forecast period encompass the rising use of 3D printing technology for personalized cement tiles, the embracement of intelligent manufacturing technology in tile factories, the advancement of nanotechnology for stain-resistant tile surfaces, an increasing dependence on green technology for environmentally friendly tile production, and the development of designing software technology for accurate tile configurations.

What Are The Key Factors Driving Growth In The Cement Tiles Market?
The expansion of the construction sector is predicted to fuel the development of the cement tiles market. The construction sector encompasses the conceptualization, design, and execution of infrastructure projects including residential, commercial, and public buildings. The sector's growth is spurred by the rapid pace of urbanization, as the needs of burgeoning urban populations for housing and services necessitate new structures. Cement tiles, with their robust, low-maintenance surfaces that marry durability with aesthetic charm, cater to the construction industry's requirements. Their resilience against wear and their versatile design make them suitable for both homes and businesses. For example, the United States Census Bureau, a government body, reported in June 2024 that private housing completions achieved a seasonally adjusted yearly rate of 1,514,000 in the previous month, marking a 1.0% hike from 1,499,000 in May 2023. As a result, the cement tiles market growth is fueled by the expanding construction industry. The cement tiles market is expected to be boosted by the rising demand for home renovation and remodeling, driven by shifting consumer lifestyles. Home renovations, which entail updating or enhancing residential spaces to improve their appeal, functionality, or property value, are becoming more popular as consumer lifestyles evolve, and homeowners invest more in customized, stylish interiors that mirror contemporary design tastes. Cement tiles, with their durable construction and vibrant, decorative patterns, add personality to any home renovation project. Their timeless allure makes them particularly suitable for areas with heavy foot traffic, such as kitchens, bathrooms, and corridors. For instance, according to the Joint Center for Housing Studies of Harvard University, a research institute specializing in housing and urban development, the total spending on remodeling and repairs for owner-occupied homes in the US is predicted to get to $485 billion in 2023, reflecting a 2.6% increase from the preceding year. Thus, the surge in home renovations and remodeling is spurring the growth of the cement tiles market.

What Are The Top Players Operating In The Cement Tiles Market?
Major players in the Cement Tiles Global Market Report 2025 include:

• H & R Johnson
• Wausau Tile
• Bisazza SpA
• K.G. Group
• Sabine Hill
• Mosafil GmbH
• Granada Tile
• Villa Lagoon Tile
• Hindustan Marble and Granite
• Tabarka Studio

What Are The Main Trends, Positively Impacting The [Growth Of Cement Tiles Market?]
Leading firms in the cement tiles market are concentrating their efforts on the creation of

advanced products such as artisan cement tiles in order to cater to the increasing consumer demand for high-quality finishes in contemporary interiors. Handcrafted cement tiles are produced individually through traditional techniques, where every tile is hand-molded, tinted, and stamped. These tiles provide unique patterns, rich texture, and resilience, adding an artistic element to both indoor and outdoor areas. For example, in February 2022, Tempesta Tiles, a company in India that specializes in natural stone tile surface finishes, introduced the CEMENTILES Collection. This collection merges traditional skill with state-of-the-art technology to generate vibrant, robust, and eco-friendly cement tiles. It delivers design adaptability with an extensive range of patterns appropriate for both modern and heritage interiors. The collection is targeted towards architects and designers who are seeking a unique aesthetic in addition to lasting performance.

Comprehensive Segment-Wise Insights Into The Cement Tiles Market
The cement tiles market covered in this report is segmented –

1) By Material Type: Natural Cement Tiles, Portland Cement Tiles, White Cement Tiles
2) By Design: Plain, Patterned, Textured
3) By Installation: Flooring, Wall Cladding, Roofing
4) By Distribution Channel: Online Retailers, Physical Stores, Direct Sales
5) By End-User: Residential, Commercial, Institutional

Subsegments:
1) By Natural Cement Tiles: Sand-Based Natural Cement Tiles, Lime-Based Natural Cement Tiles, Colored Pigment Natural Cement Tiles, Traditional Handmade Natural Cement Tiles
2) By Portland Cement Tiles: Grey Portland Cement Tiles, Blended Portland Cement Tiles, Sulfate-Resistant Portland Cement Tiles, Rapid-Hardening Portland Cement Tiles
3) By White Cement Tiles: Polished White Cement Tiles, Matte Finish White Cement Tiles, Terrazzo White Cement Tiles, Decorative Inlay White Cement Tiles
