# eir Partners with Openmind Networks as Preferred Messaging Systems Provider

Openmind Networks will deliver their industry-leading Short Message Service Centre (SMSC) to ensure the highest standards of messaging for eir's customers.

DUBLIN, IRELAND, September 1, 2025 /EINPresswire.com/ -- Openmind Networks, a global leader in messaging platform solutions, is proud to announce its partnership with eir, one of Ireland's premier providers of telecommunications and postal services. As eir's preferred supplier for messaging systems software and Short Message Service Center (SMSC) solutions, Openmind Networks will deliver industry-leading security and reliability to ensure the highest standards of messaging for eir's customers.

> The partnership with Openmind Networks provides Eir with a solid platform on which to further develop our messaging portfolio."
>
> *Liam O'Toole, Head of Mobile Data and Messaging*

With the telecommunications landscape undergoing rapid transformation, Eir remains steadfast in its commitment to delivering innovative, secure, and reliable messaging services to its private and business customers. By selecting Openmind Networks as its partner for messaging systems, including SMSC, Application Router, and IPSM Gateway, eir solidifies its position as a leader in secure, future-proof communications.

"The partnership with Openmind Networks provides Eir with a solid platform on which to further develop our messaging portfolio," said Liam O'Toole, Head of Mobile Data and Messaging at eir. "Openmind Networks' proven expertise in messaging systems makes them the ideal partner to help us deliver innovative and robust messaging solutions to our customers."

Openmind Networks specializes in advanced messaging systems software, fraud prevention solutions, and communication platforms that empower operators to adapt to an ever-changing

market. Focused on security, reliability, and scalability, Openmind Networks ensures telecom providers can deliver seamless messaging experiences while safeguarding customer data.

"We are extremely pleased to be chosen as eir's principal partner for messaging systems software and SMSC," said Alex Duncan, CEO of Openmind Networks. "This partnership reflects a long history of providing messaging solutions in the Irish market that enable operators like eir to provide best-in-class messaging for their subscribers and maximize revenues from A2P messaging."
