

PPF CONSEIL FORMATION Expands Qualiopi Certification & EDOF Support to Global Market

Led by Tristan Valadier, PPF CONSEIL FORMATION enhances its services in Accompagnement Qualiopi and Accompagnement EDOF for French training providers.

PARIS, ILE DE FRANCE, FRANCE, August 31, 2025 /EINPresswire.com/ -- In response to increasing global interest in quality assurance within the vocational training sector, [PPF CONSEIL FORMATION](#), a French consulting firm founded by Tristan Valadier, is proud to announce the international expansion of its services, specializing in [Accompagnement Qualiopi](#) and [Accompagnement EDOF](#).

PPF CONSEIL FORMATION is already a well-established name in France, helping training organizations navigate the often-complex path to compliance with national regulations. With growing demand from foreign institutions looking to access the French market or align with its training standards, the firm is now offering its expertise beyond French borders.

Tristan Valadier - PPF CONSEIL FORMATION

“Certification shouldn’t be a regulatory burden,” says Tristan Valadier, founder of the firm. “It should be a real strategic advantage. That’s what we deliver.”

What Is Qualiopi and Why It Matters

“

EDOF and Qualiopi are not barriers—they’re gateways to growth when done right.”

Tristan Valadier

Introduced in 2019 and now mandatory in France, Qualiopi certification is the official quality label that training providers must hold if they wish to access public or pooled funding—such as CPF (Compte Personnel de Formation), OPCOs, and Pôle Emploi programs.

The certification is based on seven core criteria and thirty-two detailed indicators that cover

everything from administrative processes to client satisfaction and continuous improvement. Achieving this certification can be overwhelming for training providers unfamiliar with the standards.

PPF CONSEIL FORMATION offers comprehensive Accompagnement Qualiopi, guiding clients from initial readiness assessments all the way to successful audits. This includes document templates, live coaching, mock audits, and support during the actual evaluation process.

“We’ve helped over 100 organizations successfully pass their Qualiopi audits. Our success rate is close to 100% because we adapt to each client’s reality—there’s no one-size-fits-all approach,” adds Valadier.

EDOF: Visibility and Access to CPF Funding

Alongside Qualiopi, the EDOF platform (Espace des Organismes de Formation) is another key component for training providers. This digital space allows certified providers to publish their courses and make them visible to the public via the Mon Compte Formation platform—France’s centralized portal for training access.

However, EDOF is not intuitive. Errors in data entry, metadata, or linking with CPF codes can lead to invisibility, loss of funding, or even administrative penalties. PPF CONSEIL FORMATION offers tailored Accompagnement EDOF services to ensure proper setup and long-term manageability.

The team provides both done-for-you support and in-house training so organizations can become fully autonomous on the platform.

“EDOF is your public storefront. If your listings aren’t correct or optimized, your visibility—and revenue—are at risk,” says Valadier.

Who Is This For?

The firm’s services are aimed at a broad range of clients:

- Independent trainers and consultants
- Training centers and schools
- Large organizations managing internal training
- Foreign institutions expanding into the French market
- Business consultants in need of white-label compliance services

Thanks to digital workflows and remote collaboration tools, PPF CONSEIL FORMATION is already supporting clients across Europe, North Africa, and French overseas territories.

What’s Included

PPF CONSEIL FORMATION delivers turnkey solutions, including:

- Pre-certification audits and gap analysis
- Step-by-step project management for Qualiopi certification
- Preparation and simulation of audits
- Creation and optimization of EDOF accounts
- Strategic advice for long-term compliance and growth
- Post-certification updates and internal training

“We act like an extension of your team. Our role is to simplify, structure, and secure your training activity from a regulatory standpoint—so you can focus on delivery,” explains Valadier.

About the Founder

Tristan Valadier is a compliance consultant and entrepreneur with a sharp understanding of the French vocational training landscape. Known for his straight-talking and efficient approach, he created PPF CONSEIL FORMATION to help training providers not just meet regulations—but thrive under them.

Under his leadership, the firm has become one of the most trusted names in Accompagnement Qualiopi and Accompagnement EDOF in France.

Looking Ahead

As training becomes more regulated across Europe and globally, organizations need expert guidance to stay compliant, credible, and visible. PPF CONSEIL FORMATION is now extending its trusted methodology and proven tools to an international audience.

“We’re here to turn complexity into clarity,” says Valadier. “And certification into opportunity.”
