Rise in territorial conflicts throughout the world and increase in demand for guns for competitive sports are expected to drive the shooting and gun accessories market growth during the forecast period. However, stringent government regulations on gun ownership is one of the prominent factors that are expected to restrain the growth of the shooting and gun accessories market

shooting-and-gun-accessories-market-2021-2030-163317017

during the forecast period. Moreover, rise in defense expenditure globally is one of the major factors that is expected to supplement the shooting and gun accessories market. At present, North America is the highest revenue contributor, followed by Asia-Pacific.

COVID-19 Impact Analysis

The COVID-19 impact on the shooting and gun accessories market is unpredictable and is expected to remain in force till the fourth quarter of 2021.

The COVID-19 outbreak forced governments across the globe to implement strict lockdowns and banned/restricted the number of personnel in the factories for most of 2020. This led to sudden fall in manufacturing capacity for guns and accessories across the globe.

Adverse impacts of the COVID-19 pandemic have resulted in delays in activities and initiatives regarding development of advanced shooting and gun accessories globally.

North America dominates the market, in terms of revenue, followed by Asia-Pacific, Europe, and LAMEA. The U.S. dominated the shooting and gun accessories market share in North America in 2020, owing to favorable gun ownership regulations, technological developments by local players, rapid adoption of innovative technologies in making smart, convenient, and efficient guns and accessories. North America is expected to grow at a significant rate during the forecast period, owing to relaxation in gun regulations, rise in conflicts, and increase in shooting competitions in the country.

Key Findings Of The Study

By type, the other segment including the magazines & loaders, targets, and accessories is expected to register a significant growth during the forecast period.

By end use, the competitive sports segment is anticipated to exhibit significant growth in future.

By distribution, the online segment is projected to lead the global shooting and gun accessories market, owing to higher CAGR as compared to civil segment.

By region, North America is anticipated to register the highest CAGR during the forecast period.
