

# CodaPet launches compassionate in-home pet euthanasia services in Bentonville, AR, and surrounding areas.

*The veterinarian-owned startup empowers a network of veterinarians who provide in-home euthanasia to ease the passing of pets at home, surrounded by loved ones.*

BENTONVILLE, AR, UNITED STATES, September 2, 2025 /EINPresswire.com/ -- CodaPet has expanded its services in [Bentonville, AR](#). The company provides peaceful [in-home pet euthanasia](#) through a network of compassionate and licensed veterinarians who offer end-of-life care for pets at home. In-home pet euthanasia is the best experience for dogs and cats and their families because their home is where they feel most familiar and comfortable. [Dr. Kellie Ayle](#), who has been serving families through CodaPet, recently relocated from Phoenix to Bentonville and now serves as the primary provider in the area, offering compassionate care to the surrounding communities.

"It is my wish that every family in Bentonville become aware of at-home pet euthanasia so they may provide a peaceful and compassionate end-of-life experience for their beloved pets when their time comes," says Dr. Bethany Hsia, a co-founder of CodaPet. "As an in-home euthanasia veterinarian, I repeatedly hear the heartfelt gratitude and the relief a family feels when they have been able to grant their pet this gift."

Dr. Bethany Hsia, Dr. Gary Hsia, and Dr. Karen Whala are co-founders and veterinarians of

In Home Pet Euthanasia Mobile Veterinarian

CodaPet. They share a passion for increasing both customer access and awareness by empowering a network of veterinarians who provide compassion and professional care to more pets and their families in a familiar environment.

"In-home euthanasia is a blessing for the community members of the eastern and southern portions of the Valley because making the decision to say goodbye to a cherished pet can be difficult on so many levels. Having a gentle, kind, skilled doctor come to the home removes a large piece of the burden from the pet parent and allows them to focus on their last moments with their pet," says Dr. Kellie Ayle.

Dr. Ayle spent fifteen years in family pet medicine before transitioning to high-volume spay and neuter work, where she performed tens of thousands of surgeries for both rescue groups and family pets. While challenging, she found the work deeply fulfilling and a vital way to give back to the community.

Reflecting on the bond between people and their pets, Dr. Ayle recalls a family friend once saying that pets are "little heartbreaks waiting to happen." Though she knows pets bring far more joy than sorrow, she recognizes the truth in those words. "It will always break our hearts when they leave us. If I can help ease that heartbreak by providing a peaceful, loving transition for pets in their homes, surrounded by family, it's an honor I don't take lightly."

Dr. Ayle now serves Bentonville, Rogers, Springdale, Elm Springs, Bella Vista, Fayetteville, and the surrounding areas.

### How In-home Pet Euthanasia Works

Through CodaPet's website, pet parents can easily book in-home pet euthanasia performed by a licensed vet.

Before the appointment, the vet contacts the family to address any questions or concerns they might have.

The vet assists the family by going over the diagnosis and applying a quality-of-life assessment to objectively assess the pet's health and ensure there is no uncertainty about the need for euthanasia.

For those who need support with aftercare, CodaPet can also assist with transportation and cremation services.

The visit takes, on average, one hour. Pet parents have a window of time to be with their pets privately before and after the euthanasia procedure, which lasts about 15 minutes. The vet only starts the euthanasia process when everyone is ready. This helps bring closure to all family members involved in the end-of-life care of a pet.

Benefits of In-home Pet Euthanasia include:

1. **Compassion:** In-home pet euthanasia allows for a more compassionate approach to end-of-life care. Pets can be surrounded by their loved ones, receive individual attention and care, and pass away peacefully in a familiar environment.
2. **Comfort:** One major benefit of in-home pet euthanasia is the comfort it provides to both the pet and their owners. The familiar surroundings of home can help reduce anxiety and stress for pets, making the process more peaceful. In addition, being surrounded by loved ones can provide a sense of support and comfort during a very difficult time.
3. **Control:** In-home pet euthanasia also allows pet owners to have more control over the experience. They can choose the time and place of the euthanasia, as well as who will be present. In addition, in-home euthanasia allows owners to personalize the experience, including choosing the location, music, lighting, and other factors that can make the experience more meaningful.
4. **Closure:** Being able to say goodbye in a meaningful way can be an essential part of the grieving process. In-home pet euthanasia allows for a more intimate farewell, which can provide closure and help with the healing process.

### In-home Pet Euthanasia Costs

The starting price of in-home euthanasia starts at \$300 in Bentonville. The aftercare and cremation price begins at \$75 and varies depending on factors such as the driving distance, the pet's size, and the option for private or communal cremation.

### About CodaPet

CodaPet is expanding quickly and currently supports a network of veterinarians that offer peaceful at-home pet euthanasia services in over 100 cities. Our network of compassionate and licensed veterinarians is available to help your beloved pet pass peacefully, surrounded by family and all the safety and comforts of home.
