

# Government-Trusted Security Provider Introduces Interest-Free Smart Home Protection Plans

CANBERRA, ACT, AUSTRALIA,  
September 11, 2025 /

EINPresswire.com/ -- Canberra-based [Leader Security](#) has introduced new interest-free payment options for its smart home protection services, aiming to improve accessibility to advanced security systems for households across the region.

The move comes amid growing demand for flexible and cost-effective home protection solutions. Through a partnership with finance provider Zip, eligible customers can now access up to \$5,000 in credit for approved security installations, including alarm monitoring, CCTV systems, and access control, with no upfront payment and interest-free terms.

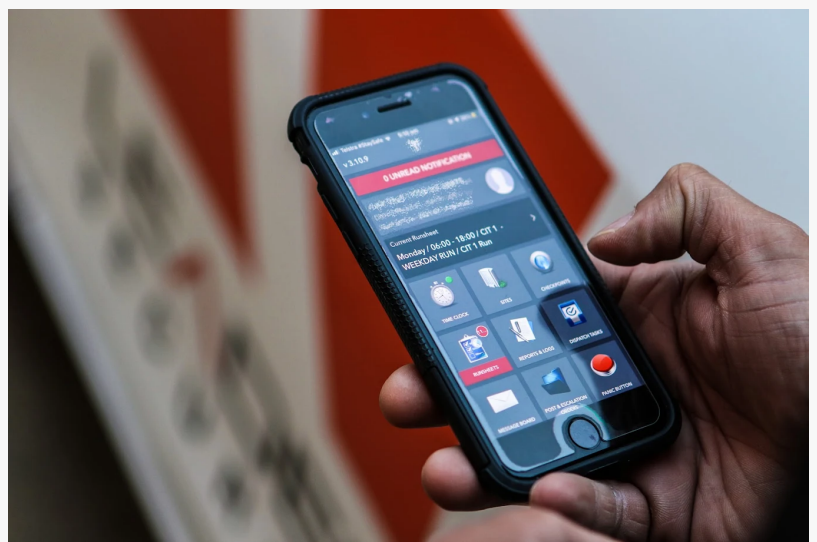

Leader Security, established in 2010, is recognised for delivering tailored security solutions to residential, commercial, and government clients. The company's services span advanced technology systems, physical security personnel, and specialist protection strategies, including video surveillance, K9 response units, and virtual monitoring services.

The interest-free plans are expected to support homeowners in adopting critical security

upgrades, especially as home break-ins and property-related crimes remain a concern in many communities. The offering also reflects a broader trend of integrating flexible finance models into essential service sectors.

“Our aim is to reduce the barriers to strong, reliable home security,” said a company representative. “By making payment options more flexible, we’re helping more households take proactive steps to protect their property and loved ones.”

Leader Security is an ISO certified quality endorsed security provider and delivers ASIAL Certified Grade A1 real-time Security Alarm and Video Monitoring services to their clients, the highest level of alarm monitoring accreditation in Australia. The company’s systems are backed by 24/7 alarm and video monitoring centre, equipped to support all major brands of security systems.

Interest-free plans are available on a range of products and services, including wireless alarm systems, motion sensors, intercom systems, and professional installation. The finance program applies to both existing and new clients and can be used for upgrades, new builds, or ongoing system maintenance.

### About Leader Security

Founded in 2010, Leader Security provides tailored, technology-driven protection solutions to residential, commercial, and government clients across Canberra and beyond. With a focus on innovation, prevention, and reliability, the company offers a wide range of services, including alarm systems, surveillance, access control, and professional guarding services. Leader Security is an ASIAL-certified provider, committed to maintaining the highest standards in Australian security.
