

# Google Pixel Women's Supercup 2025 | mcube™ Redefines Immersive Fan Experience in India

*From real-time Hindi commentary to AI-powered highlights, mcube™ made global women's football accessible and inclusive for millions in India.*

MUMBAI, INDIA, September 3, 2025 /EINPresswire.com/ -- The Google Pixel Women's Supercup 2025 Final in Karlsruhe, where FC Bayern Munich defeated VfL Wolfsburg 4-2, was more than just a football match. It was the night when India ushered in a new age of fan engagement, powered by [mcube™](#), TCG Digital's proprietary AI platform.

For the first time, Indian fans were part of a global women's football final with real-time Hindi commentary, AI-

generated match reports in 11 regional languages, curated highlights, and snackable reels—a digital-first, inclusive experience across DD Sports, WAVES OTT, private OTT platforms, major broadcasters, and Indian Sports Club's digital channels.

Reaching Every Fan, Everywhere:

Until now, access to international women's football had been limited in India. The 2025 Supercup changed that forever. By deploying AI-powered innovations at scale, mcube™ ensured inclusivity and accessibility across languages, geographies, and devices.

Fans in India's tier-2 and tier-3 towns watched global football action alongside metro audiences, with many experiencing real-time Hindi commentary on WAVES OTT for the very first time. Regional journalism also received a transformative boost, with automatically localized match reports available in 11 Indian languages within just an hour of the final whistle.

AI-driven real-time Hindi commentary by leveraging low-latency translation models

Google Pixel Women's Supercup 2025 Winner FC Bayern Munich lifting the Trophy | For the first time ever, Indian fans experienced global women's football with Hindi commentary

This integration of OTT, broadcast, and social platforms created a unified national fan journey—bridging India’s diverse linguistic and cultural landscape.

mcube™: The AI Engine behind the Transformation:

At the heart of this success was mcube™, TCG Digital’s advanced intelligence platform. Designed to handle high-volume, real-time sports data, mcube™ delivered a suite of breakthrough capabilities during the Women’s Supercup Final:

• Real-Time Multilingual Commentary:

By incorporating low-latency translation models, mcube™ powered live Hindi commentary on WAVES OTT—a first for Indian sports broadcasting. Not only that, the system can rapidly scale to more languages, future-proofing broadcasts for wider fan bases.

“

At TCG Digital, we are proud to power this transformation. By blending AI, innovation, and fan passion, we are redefining the future of sports engagement and broadcasting,”

Arunava Mitra, Senior Vice President-TCG Digital

during the live play. These snackable, context-aware clips were instantly shareable across social media, turning passive viewing into dynamic interaction.

By integrating these innovations, mcube™ transformed the fan experience from a one-way broadcast into a multi-platform, real-time, and interactive journey.

A Cultural Milestone for Indian Football:

This was more than technology—it was a cultural shift. For the first time, Indian fans could engage with a global women’s football final in their own languages, through platforms they

LLM and knowledge graphs deliver real-time match reports localized into 11 regional languages

Google Pixel Women's Supercup 2025 Final : FC Bayern Munich defeated VfL Wolfsburg 4-2

• AI-Generated Match Intelligence: Using LLM-driven natural language generation anchored by domain-specific knowledge graphs, mcube™ produced detailed, contextual match reports automatically localized into 11 regional languages—delivered within 1 hour of the match ending.

• Automated Highlight Generation: Traditional highlight editing can take hours. mcube™’s vision models and real-time metadata tagging created curated highlight packages in under 1 hour, ensuring that fans could relive the action while engagement levels were still at their peak.

• Micro-Reel Creation for Continuous Engagement: To serve digital-first audiences, generative video summarization agents auto-produced 30-second reels every 10 minutes

already use, with highlights and reels that kept conversations alive long after the final whistle.

"At TCG Digital, we are proud to power this transformation. By blending AI, innovation, and fan passion, we are redefining the future of sports engagement and broadcasting," said Arunava Mitra, Senior Vice President - TCG Digital.

The Google Pixel Women's Supercup 2025 Final will be remembered not only for Bayern Munich's victory, but for the way mcube™ showcased AI's power to transcend geographies, languages, and cultures—making world-class football truly accessible to everyone.

About TCG Digital:

TCG Digital is the flagship technology arm of The Chatterjee Group, delivering AI-powered transformation through its enterprise advanced intelligence platform mcube™. With applications across sports, life sciences, manufacturing, and beyond, mcube™ is redefining how enterprises predict, perform, and personalize at scale.
