

# Excellent Webworld Strengthens Middle East Presence with the Addition of New Office in Dubai, UAE

*Excellent Webworld announces new office location in Dubai, UAE, to scale AI & software development initiatives, and strengthen in-region execution.*

DUBAI, UNITED ARAB EMIRATES, September 3, 2025 /EINPresswire.com/ -- [Excellent Webworld](https://www.excellentwebworld.com/), a globally recognized leader in [AI-powered software development](#), has announced the official address of its new regional office in Dubai as part of its strategic expansion across the Middle East.

Located in 928, Victor Business Center, Burjuman Business Tower, Bur Dubai, Dubai, the expansion reflects Excellent Webworld's commitment to serving public and private sector organizations across the UAE and the Middle East with in-region expertise in [AI development services](#), along with software, app, and MVP development-related offerings.

For 13+ years, Excellent Webworld has delivered high-performing digital technology solutions to clients across the UAE, KSA, Kuwait, Qatar, and the rest of the Middle East, apart from APAC, North America, and Europe. Championed as one of the pioneers of digital transformation in the region, Excellent Webworld's entry into advanced AI & Software in the Middle East began with nearshore projects and distributed development support, and with a 1-1 meeting with CTO, Mayur Panchal, on a per-need basis.

By establishing a physical base, clients now have the option to engage directly with a dedicated local development team. With the new office in Dubai, Excellent Webworld offers regional firms to easily:

- Hire certified engineers for on-premise and hybrid AI, MVP, software, and app development

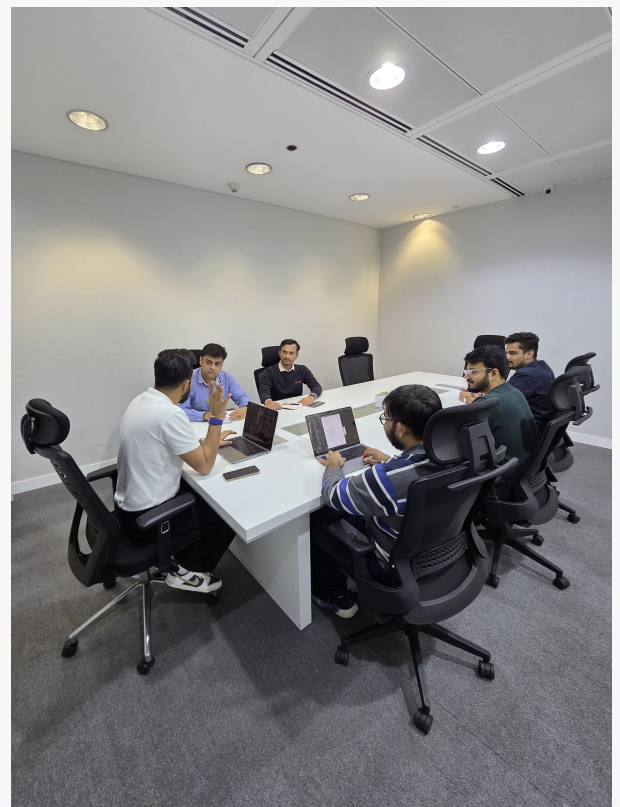

Excellent Webworld Dubai Office Reception

projects

- Develop AI-powered software solutions with a qualified local development team

Having worked with the biggest Middle Eastern players like Seen Jeem, Amazon UAE, the Dubai Government, and more, Excellent Webworld has built a reputation for excellence in digital, compliance, and performance standards unique to the Gulf region.

Mayur Panchal, CTO of Excellent Webworld, overseeing the Middle East operations and now based in Dubai to lead client engagement and regional delivery, noted, "Over the years, we have considered the Middle East not just as a market but as a partner and a source of inspiration for some of our finest development projects. With our Dubai base, we are extending that legacy through local AI & software talents, committed to co-create the next wave of advancements. This move reaffirms our dedication to building long-term, on-ground transformation in the Middle East region."

Excellent Webworld's Development Team Working in Dubai Office

"Our office in Dubai strengthens our ability to serve the region with even greater impact. It allows us to offer them not only world-class AI and software expertise but also the comfort of working with dedicated local teams who understand their language, culture, and business ethos. With this move, we are making it easier for our partners to scale, innovate, and be part of the region's bold digital vision," said Paresh Sagar, CEO of Excellent Webworld.

“

Our presence in Dubai connects smart development with regional access. Clients can now experience AI-first execution with precision, speed, regional alignment, and decision-making clarity."

*Excellent Webworld*

"Operational excellence has always been our backbone, and with Dubai as our regional hub, we can now achieve it with efficiency and adherence to local norms. From onboarding skilled development teams to executing

projects, our Dubai office ensures that our clients can access AI expertise with the speed and reliability they expect from Excellent Webworld," said Mahil Jasani, COO of Excellent Webworld.

Along with the expansion, Excellent Webworld has recently rolled out its rebranded corporate website. This upgrade highlights the AI development company's capabilities and simplifies

service discovery for business leaders and decision makers.
