# Codiant Accelerates Digital Transformation With 100% AI-Enabled Service Ecosystem

Delivering end-to-end AI-powered services, Codiant enables enterprises and startups to innovate faster, scale smarter, and achieve measurable impact.

CHICAGO, IL, UNITED STATES, September 3, 2025 /EINPresswire.com/ -- Codiant a global leader in digital transformation, today announced the expansion of its 100% [AI-enabled service](#) ecosystem, empowering businesses across industries to embrace intelligent automation, improve efficiency, and unlock new growth opportunities.

Codiant's service portfolio now integrates artificial intelligence into every layer of delivery, enabling organizations to move beyond traditional digital transformation into future-ready, AI-driven innovation. From enterprise mobility, cloud and DevOps, data and analytics, and custom web solutions to AI agents, Gen AI, NLP, computer vision, and predictive analytics, Codiant provides a unified ecosystem where technology becomes an engine of measurable business impact.

> "
> AI is no longer a separate capability, it is the foundation of everything we build."
>
> *Vikrant Jain, CEO, Codiant Software Technologies*

What's Inside the New Suite:

Codiant's expanded ecosystem integrates AI across core service pillars including mobility, web and cloud development, data and analytics, UI/UX, and enterprise platforms. On top of these, the company has layered advanced capabilities such as AI agents, computer vision, NLP, predictive modeling, and intelligent automation, creating a seamless suite that empowers businesses to modernize without disruption.

Where Businesses Will Feel the Impact-
The impact of this AI-first ecosystem will be most visible in areas that matter to enterprises today: faster decision-making, reduced time-to-market, streamlined workflows, and richer customer experiences. By embedding intelligence across touchpoints, Codiant helps

organizations cut costs, boost agility, and uncover new growth opportunities, whether they're scaling globally or strengthening local market presence.

Not Just a Provider, a Partner!
Beyond delivering technology, Codiant positions itself as a strategic partner. Its team of AI architects, developers, and consultants collaborate closely with clients to design solutions that address both immediate challenges and long-term ambitions. This partnership-driven approach ensures businesses don't just adopt AI; they extract sustained value from it.

By embedding AI across our services, we're helping clients accelerate decision-making, reduce operational bottlenecks, and create transformative experiences for their customers. This is how digital transformation becomes tangible business growth."

As Codiant strengthens its global presence, the company remains committed to driving innovation that anticipates tomorrow's challenges while solving today's business needs. Its AI-first approach ensures organizations have the tools, strategies, and agility to thrive in competitive markets.
