

MIRhosting Expands to India: Managed Colocation Now Available in Mumbai

AMSTERDAM/ MUMBAI,
NETHERLANDS, September 4, 2025
/EINPresswire.com/ -- International
infrastructure solutions provider
MIRhosting announces the expansion
of its global footprint: the company is
now offering managed colocation
services in one of South Asia's largest
digital hubs — Mumbai.

Mumbai – India's Financial and Digital
Communications Heart

Mumbai is widely recognized as the
financial capital of India and the
country's primary internet gateway. More than 80% of India's international internet traffic flows
through the city's IXP nodes, while local points of presence of global operators and cloud giants
ensure fast and reliable global connectivity. The city hosts the headquarters of leading banks,
investment firms, fintechs, and digital enterprises. For businesses entering the Indian market,
Mumbai stands out as a strategic launchpad for growth.

“

We deliver European-grade
service in Asia's key digital
hub. With a Tier-4 Mumbai
data-center partner and
India-based engineers, we
provide a solid foundation
and 24/7 support for your
growth”

*said Andrey Nesterenko, CEO
of MIRhosting*

MIRhosting Managed Colocation in India

MIRhosting delivers client infrastructure via partner Yotta
Tier-4 data center in Mumbai, fully compliant with the
world's most demanding standards:

- Tier-4 certification by Uptime Institute – maximum fault tolerance and availability.
- ISO 9001 and IEC 27001 certifications – verified process quality and data security.
- LEED Gold – energy efficiency and sustainable design.

The Mumbai data center provide:

- Up to 12 kW per rack with full redundancy.
- Additional capacity for high-density racks (GPU and AI infrastructure).
- Energy-efficient cooling designed for AI/ML and HPC workloads.
- Multi-homed connectivity across multiple Tier-1 carriers, ensuring ultra-low latency and global reach.

Why MIRhosting?

Unlike traditional rack rental, MIRhosting offers managed colocation:

- Placement of client-owned hardware or full server procurement and build-to-order solutions.
- Network and IP transit managed by MIRhosting.
- On-site engineers providing Remote Hands 24/7 in India.
- End-to-end support: from sourcing and configuring hardware to customs clearance and ongoing operations.

Business Advantages

- Strategic location: access to a market of 1.4 billion consumers.
- Time zone GMT+5:30 – ideally aligned for Europe, the Middle East, and Asia-Pacific.
- World-class talent: India is home to one of the largest pools of IT and engineering professionals worldwide.

About MIRhosting

MIRhosting is an international IT infrastructure provider delivering managed colocation, cloud solutions, and network services. The company serves enterprise clients across Europe, Asia, and the US, helping organizations scale with reliability, flexibility, and cost efficiency.
