The report offers a detailed segmentation of the global [organic personal care and cosmetic products](#) market based on product type, consumer, distribution channel, and region. The report provides an analysis of each segment and sub-segment with the help of tables and figures. This analysis helps market players, investors, and new entrants determine the sub-segments to be tapped into to achieve growth in the coming years.

By product type, the skin care segment held the major share in 2021, garnering nearly one-third of the global organic personal care and cosmetic products market revenue, and is projected to maintain its dominance by 2031. However, the oral care segment would portray the fastest CAGR of 5.8% during the forecast period. Hair care, makeup & color cosmetics, and others segments are also discussed in the report.

By consumer, the women segment accounted for the largest share in 2021, contributing to

nearly two-thirds of the global organic personal care and cosmetic products market revenue, and is projected to maintain its leadership during the forecast period. Furthermore, the men segment would display the fastest CAGR of 5.4% from 2022 to 2031.

By distribution channel, the drug stores segment held the largest share in 2021, garnering nearly two-fifths of the global organic personal care and cosmetic products market revenue, and is projected to rule the roost by 2031. On the other hand, the online sales segment would exhibit the fastest CAGR of 6.2% from 2022 to 2031. The supermarkets and hypermarkets, departmental stores, brand outlets, and others (multi-level marketing, concept stores, and others) segments are also studied in the report.
