The Business Research Company

Its value is forecasted to increase from \$1.93 billion in 2024 to \$2.07 billion in 2025, exhibited by a compound annual growth rate (CAGR) of 7.1%. The boost in the historic period can be tied to the rising demand for durable materials, augmented investments in the construction industry, a surge in incorporation in office settings, an emphasis on eco-friendly materials, and escalated utility in healthcare facilities.

Expectations are high for [robust expansion in the metal board suspended ceiling market](#) in the coming years. The market is projected to grow to a staggering \$2.68 billion by

2029, resulting in a compound annual growth rate (CAGR) of 6.7%. Factors contributing to this anticipated growth during the forecast period are an escalating demand for contemporary aesthetics, a heightened focus on fire resistance, a surge in usage within commercial buildings, and a growing emphasis on acoustic performance. The forecast period will also bring about trends like the amalgamation of intelligent ceiling systems, use of technology to elevate acoustic performance, advancements in fire-resistant materials, fusion with HVAC and lighting segments, and leveraging technology to improve acoustic insulation.

What Are The Current Leading Growth Drivers For Metal Board Suspended Ceiling Market?

[The growth of the metal board suspended ceiling market](#) is anticipated to be propelled by the expanding construction industry. A variety of engineering and architectural techniques are utilized in constructing, modifying, and maintaining structures like buildings and infrastructure in the construction industry. Accelerated urban development, which necessitates increased residential spaces, transportation systems, and essential public amenities, is driving the growth of the construction sector. Metal board suspended ceilings provide a distinct advantage in newly built buildings by easily revealing utilities such as electrical wiring and ventilation, thereby simplifying and enhancing the efficiency of maintenance and upgrades. The Office for National Statistics, located in the UK, reported that construction output saw an annual growth of 5.6% in 2022 in February 2023, following a substantial increase of 12.8% in 2021. Therefore, the growth of the construction industry is contributing to the development of the metal board suspended ceiling market.

Which Companies Are Currently Leading In The Metal Board Suspended Ceiling Market?

Major players in the Metal Board Suspended Ceiling Global Market Report 2025 include:

- Compagnie de Saint-Gobain S.A.
- Kingspan Group plc
- Hunter Douglas N.V.
- Lindner Group KG
- USG Corporation
- Armstrong World Industries Inc.
- Burgess Architectural Products Limited
- OWA Ceiling Systems GmbH
- Rockfon LLC
- Knauf Gips KG

What Are The Main Trends, Positively Impacting The Growth Of Metal Board Suspended Ceiling Market?

Leading businesses in the market of metal board suspended ceilings are concentrating on the innovation of materials inspired by nature, such as metal ceilings that imitate wood, to augment aesthetic appeal and foster biophilic design principles. A metal ceiling designed to look like wood is a metal ceiling panel which is styled with finishes and textures that duplicate the look of natural wood, uniting the aesthetic appeal of wood with the robustness and functionality of metal. An example of this is the ROCKWOOL Group, a firm from Denmark which specializes in stone wool insulation products. This company has broadened its range of metal ceiling panels with the introduction of their Wood Look items, which includes the updated Metalwood and Woodscenes finishes, along with the Woodlands line. This updated collection presents 26 finishes that copy the look of wood, thus allowing North America's architects and designers a way to integrate the natural warmth of wood into ceiling designs while also benefiting from the

strength and easy maintenance of metal. This collection also offers improved acoustic characteristics and supports a seamless blend of indoor and outdoor design aspects. Moreover, with the finishes being GREENGUARD Gold certified, they also contribute towards better indoor air quality and satisfaction of sustainability standards. Additional three new standalone Metalwood finishes facilitate harmonious integration with the Rockfon Infinity Perimeter Trim and the Chicago Metallic suspension system.

How Is The Metal Board Suspended Ceiling Market Segmented?

The metal board suspended ceiling market covered in this report is segmented –

- 1) By Type: Mineral Fiber Ceilings, Metal Ceilings, Gypsum Ceilings, Wood Ceilings
- 2) By Installation Method: Grid System, Direct Mounting, Suspended Mounting, Modular Ceiling Systems
- 3) By Application: Commercial Buildings, Residential Buildings, Industrial Buildings, Institutional Buildings
- 4) By End-User: Contractors And Builders, Architects and Designers, Facility Managers, Building Owners

Subsegments:

- 1) By Mineral Fiber Ceilings: Wet-Felt Mineral Fiber Panels, Dry-Felt Mineral Fiber Panels, High-Density Mineral Fiber Panels
- 2) By Metal Ceilings: Lay-In Panels, Clip-In Panels, Hook-On Panels, Linear Strips, Open Cell Systems
- 3) By Gypsum Ceilings: Regular Gypsum Boards, Moisture-Resistant Gypsum Boards, Fire-Resistant Gypsum Boards, Laminated Gypsum Panels
- 4) By Wood Ceilings: Veneered Wood Panels, Solid Wood Panels, Wood Grill Ceilings, Wood-Look Metal Panels
