can boost curb appeal and property value and protect a home from weather damage.

- Carpentry and finish work: Skilled carpenters handle trim installation, crown molding, baseboards, and minor structural repairs, ensuring a cohesive look after painting.
- Kitchen and bath remodeling: The company offers design and construction services for kitchens and bathrooms, including cabinetry, countertops, flooring and fixtures.

- Deck and fence staining: Long-lasting stains and sealants protect outdoor structures from moisture and UV exposure, reducing maintenance costs.
- Energy-efficient coatings: Light-colored exterior paints can reflect sunlight, keeping homes cooler and reducing air-conditioning expenses.

"Our mission is to provide homeowners with high-quality painting and renovation work that doesn't break the bank," said Ernesto Castellanos, owner of Legacy Painting and Renovating. "With the right preparation and materials, a new paint job can transform a home, protect it from the elements and even improve energy efficiency. We're excited to serve more clients in Pacific Grove and surrounding communities."

Expert sources note that a well-executed exterior paint job does more than freshen up a home's appearance. Fresh paint protects siding from harsh weather, moisture and salt air, preventing mold and mildew growth. Painting can also help identify hidden structural issues and improve energy efficiency when light colors are used on sun-exposed surfaces. Maintaining [a well-painted exterior increases property value](#) and helps homes sell more quickly. Given the coastal environment of Pacific Grove, regular painting and maintenance are essential to protect wood, stucco and metal surfaces from deterioration.
