What Is The Expected Cagr For The One Stop Landscaping Services Market Through 2025?

“

It will grow to \$177.84 billion in 2029 at a compound annual growth rate (CAGR) of 8.1%.”

*The Business Research  
Company*

The market size for comprehensive landscaping services has experienced significant growth in the past few years. The projections show an increase from \$120.01 billion in 2024 to \$130.16 billion in 2025, representing a compound annual growth rate (CAGR) of 8.5%. This upward trend in the historical period can be interpreted as a growing demand for beautiful outdoor environments, an increase in residential building projects, an expanding commercial real estate sector, a rise in disposable incomes, and the

development of urban green spaces.

In the upcoming years, the market size of the one-stop landscaping services is predicted to witness robust expansion, with an anticipated value of \$177.84 billion in 2029. This corresponds to a compound annual growth rate (CAGR) of 8.1%. This predicted surge during the forecast period can be ascribed to factors such as the adoption of advanced irrigation systems, an increasing demand for sustainable landscaping methods, an ageing population requiring maintenance services, a rise in the outsourcing of landscape services and the incorporation of landscaping into city planning policies. The forecast period is expected to be dominated by trends such as environmentally friendly landscaping materials, the use of robotic lawn mowers,

the creation of all-season landscaping solutions, a focus on indigenous and drought-resistant plants, and personalised landscaping solutions.

#### What Are The Driving Factors Impacting The One Stop Landscaping Services Market?

The expansion of the one stop landscaping services market is foreseen to be fueled by the rise in residential construction. Residential construction encompasses the creation and development of housing structures like condominiums, apartments, and single-family homes. This growth is mainly attributed to the wave of urbanization, with more individuals migrating to cities seeking improved employment prospects, infrastructure, and living conditions, which in turn, increases the demand for housing development. One stop landscaping services contribute to residential construction by offering comprehensive outdoor design and maintenance solutions that boost a property's market value, aesthetics, and overall habitability of newly constructed homes. For example, data from the United States Census Bureau, a US government administration, indicate that in May 2024, the seasonally adjusted annual pace of privately-owned housing completions climbed to 1,514,000, an uptick of 1.0% from the 1,499,000 recorded in May 2023. Consequently, the surge in residential construction is stimulating the expansion of the one stop landscaping services market.
