

airSlate SignNow Launches Seamless E-Signature Integration with QuickBooks Online

BOSTON, MA, UNITED STATES, September 8, 2025 /EINPresswire.com/ -- [airSlate SignNow](#), a leading provider of eSignature solutions, announced the release of its SignNow integration with QuickBooks Online. This tool enables businesses to send, sign, and manage financial documents directly within QuickBooks, eliminating manual downloads, emails, and re-uploads while maintaining a single source of truth for records.

[The integration uses a Chrome extension](#) to detect attached documents in QuickBooks records, add fillable fields, send for eSignatures, and automatically sync signed copies back to the original record.

It benefits finance teams by speeding invoice approvals and payments; small business owners by accelerating estimate sign-offs; service companies and manufacturers by linking signatures to project or inventory workflows; and external accountants by reducing client communications and errors, with easy access for audits and reporting.

Key features include:

- Direct sending from QuickBooks invoice and estimate records
- Built-in editor for signature, date, and text fields
- Automatic syncing of signed documents
- Real-time status tracking and reminders
- Tamper-evident audit trail

Business benefits encompass time savings, faster approvals, error reduction, improved compliance, and consolidated workflows.

The integration is available now. For more information, visit [the documentation page](#).
