Features of 3M™ Protection Wrap Film Color Series

Stylish Personalization, Superior Protection

3M Protection Wrap Color Series is available in nearly 30 premium colors, including gloss, matte, and striking 'color flip' finishes. These can be used for accents, partial wraps, or full vehicle coverage for maximum protection. 3M PWF is over 70% thicker than vinyl, offering increased protection against rock chips, scratches, bird droppings and more.

Self-Healing Against Minor Scratches

The film's urethane base with embedded pigmentation ensures color stability and long-term

resilience. Minor scratches can actually disappear by leaving the vehicle out the sun. This is thanks to 3M PWF's built-in self-healing properties, which perform just like 3M's clear or matte Scotchgard™ Pro Series 200 PPF.

10 Year Limited Film Warranty

3M PWF is backed by a 10-year limited warranty, providing peace of mind and assured quality for all installations performed by an Authorized 3M Dealer.
