

# Albus Showcases Advanced Blister Packaging Machines & New Environmentally-Friendly Albus-Eco at Pack Expo Las Vegas 2025

DEKALB, IL, UNITED STATES, September 15, 2025 /EINPresswire.com/ -- Albus Packaging, a leading manufacturer of packaging machinery and custom thermoformed solutions, is proud to announce its attendance to Pack Expo Las Vegas this Fall, taking place September 29–October 1, 2025 at the Las Vegas Convention Center.

Known for its innovation in packaging automation, Albus will showcase two of its leading machines: the U10 Rotary Blister Sealing System and its Medical Shuttle System — both designed and manufactured in DeKalb, Illinois.

**Live U10 Machine Demo: Blister Packaging in Action**

West Hall – W-2370, visitors will experience a live demonstration of the Albus U10, a fully automated blister sealing machine engineered for precision, speed, and operational efficiency. The in-booth demo will give attendees a firsthand look at the machine's seamless packaging process and high-speed capabilities.

**Medical Shuttle System for Regulated Applications**

Also on display is the Albus Medical Shuttle, a robust sealing solution built specifically for medical, pharmaceutical, and other regulated industries requiring precise, sterile, and repeatable performance.

**Sustainable Packaging Solutions Featuring NEW Albus-Eco Packaging Material**

Algus Packaging continues to advance environmentally responsible materials with Algus-Eco, a sustainable material designed for recyclability without sacrificing sealing strength or production efficiency. Algus-Eco offers manufacturers a clear, durable alternative that supports sustainability goals while maintaining high packaging performance.

Additional sustainable options on display include post-consumer recycled rPET and paper-based capabilities, providing versatile eco-friendly solutions for a range of applications.

“Our presence at Pack Expo reflects our commitment to innovation, quality, and sustainability,” says Rod MacNeille, CEO of Algus Packaging. “We’re excited to demonstrate how Algus-Eco and our advanced machinery can help manufacturers meet their packaging challenges today and into the future.”

### Meet the Algus Team

Several members of the Algus team will be present throughout the show, including Rod MacNeille, Tim Albers, Jim Brooks, Aaron Aska, and Andy Ford — each available to talk through specific challenges, offer packaging insights, and walk visitors through machinery capabilities.
