Political Incontinence: The Stupidest \$h@t Your Politicians Said is available now in paperback and eBook formats. Click here: <https://bit.ly/45ZiB7K>

Taking inspiration from Winston Churchill's famous quip, "Some civil servants are like constipated bureaucrats, they sit on piles of paper and produce nothing but crap," Miller highlights the bizarre, hilarious, and often shocking things politicians have said throughout history.

"Celebrities and politicians (who aren't in the book) agree, this is just downright hilarious, when it isn't making you shake your head in disbelief," said Miller. "It's the kind of book you'll want to share with friends or read quietly when April 15th rolls around."

Political Incontinence takes readers on a rollercoaster from laugh-out-loud absurdities to head-shaking moments that could bring tears. The book delivers a collection of political one-liners and blunders that entertain as much as they enlighten. With every page, readers are reminded that truth is not only stranger than fiction, it's often far dumber. By curating the most outrageous things ever uttered by public figures, the authors hold up a mirror to the political stage, where comedy and tragedy often collide in spectacular fashion.

Packed with outrageous quotes, sharp satire, and humor that crosses party lines, Political Incontinence is the perfect gift for political junkies, comedy fans, or anyone who needs a reminder that laughter is the best coping mechanism. Featuring unforgettable quotes from Al Gore, Lauren Boebert, Joe Biden, and more, the book exposes the hilarious, shocking, and downright absurd side of modern politics.

"This book is not only filled with unforgettable quotes, but we have also included the net worth of some of our most notable politicians before they were elected into office and after their term ended. The before-and-after incomes are staggering. Most people would not know that only 1 percent of people in the U.S. are millionaires, yet 99 percent of our elected officials are," Miller points out.
