

More Clarity, Less Effort: Timly Software Optimizes Inventory Management Through Innovative Cloud Technology

Digital Solution for Modern Inventory Management: Timly Software Optimizes Operations, Creates Transparency, and Helps Companies Comply with Regulations

ZÜRICH, ZH, SWITZERLAND, September 8, 2025 /EINPresswire.com/ -- Timly, a leading provider of smart [inventory management](#) solutions, empowers businesses across industries to manage their assets digitally, efficiently, and with complete transparency.

Complete Overview With the Timly Inventory Management Software

The cloud-based, user-friendly platform centralizes the management of equipment, tools, IT assets, fleets, contracts, and more. Its flexible architecture allows any type of asset to be tracked digitally using QR codes, providing a clear overview of all resources in one place.

Our platform is intuitive, flexible, and powerful — and it evolves with the needs of our customers.”

Philipp Baumann, Co-Founder and CEO

By digitizing and automating processes, Timly helps organizations cut costs, save time, and eliminate inefficiencies. From [maintenance management](#), scheduling, and stock tracking to license management and employee training records, Timly ensures businesses maintain full control of their resources—anytime,

anywhere.

Proven Across Industries

Timly is already trusted by organizations in a wide range of sectors, including:

- Construction: Digital tracking of tools, machinery, fleet assets, and safety documentation to boost efficiency and safety on-site.

- IT & Facility Management: Centralized device monitoring, license and access management, and maintenance scheduling—all in one intuitive platform.

- Healthcare: Reliable tracking of medical equipment, streamlined supply management, and compliance with strict regulatory requirements.

- Public Sector & Municipalities: Structured oversight of IT infrastructure, equipment, and assets for smooth and transparent operations.

- Education & Research: Supporting universities and research institutions with efficient management of technical and IT equipment, driving clarity and organization.

- Industry & Logistics: Transparent, trackable processes for machine maintenance, stock levels, and production resources, increasing both safety and productivity.

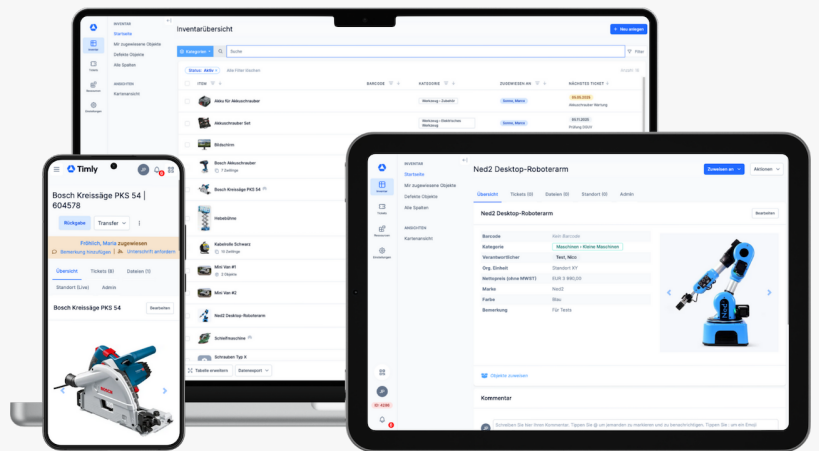

Smarter Tools for Modern Demands

Timly replaces outdated, error-prone spreadsheets with smart digital tools such as QR code-based asset tagging, automated maintenance reminders, role-based user permissions, and mobile access. The result: higher efficiency, stronger compliance, and greater confidence in day-to-day operations.

“We developed Timly to address a real-world challenge: the complexity and inaccuracy of traditional inventory management,” said Philipp Baumann, Co-Founder and CEO of Timly. “Our platform is intuitive, flexible, and powerful — and it evolves with the needs of our customers.”

Timly's Inventory Management Software Is Being Used by Hundreds of Companies

Maintenance Management Made Easy With Software

Customer-Centric Innovation

Timly is committed to close collaboration with its customers, providing personal support and continuously enhancing its platform. The solution is tailored to evolving industry-specific requirements, ensuring businesses can sustainably reduce administrative burdens and focus on what matters most.
