Armstrong's Acclaimed Success

The original film Armstrong made its mark on the indie film

circuit, earning recognition across international festivals for its powerful storytelling and direction. The film won Best Feature Film at the American Independent Film Festival, Art Film Awards, Bridgefest Vancouver, Critics' Choice Awards, Santa Monica Film Festival, Shockfest, Tokyo International Film Festival, and Top Indie Awards. It also earned honors for Best Drama, Best Ensemble, Best Music, Best Narrative Feature, and Best Director, while receiving finalist and nomination placements at renowned showcases including the Dumbo Film Festival, Indiewrap, Robinson Film Awards, and the London Movie Awards. With over a dozen accolades worldwide, Armstrong cemented its place as an indie standout and set the stage for its gripping sequel. In addition, the film claimed the #1 spot on Tubi, where it was recognized as the platform's Most Popular Film for three consecutive weeks.

“With Armstrong: Dark Secrets, I wasn't just continuing a story — I was continuing a legacy,” says Director Tray Williams. “The first film, Armstrong, introduced audiences to a world built on loyalty, betrayal, and survival, and the response proved how deeply people connected with its themes of pain, revenge, and the cost of the streets. This sequel takes viewers deeper into Sneek's journey, exposing hidden truths that challenge the line between justice and vengeance. For me, it's personal — a reflection of real cycles I've witnessed in my own community, where silence, loyalty, and choices made in desperation carry lasting consequences.”

Armstrong: Dark Secrets also brings in powerhouse names behind the scenes. Executive Producer James Hallam, whose notable film credits include *Bad Kids Go to Hell* and *Bad Kids of Crestview Academy*, joins the production team alongside Brad Keller, known for his work on *A Killer Within*, *Bad Kids of Crestview Academy*, and *Inspector Mom*.

In a joint statement, Hallam and Keller shared: “We were immediately drawn to the vision behind *Armstrong: Dark Secrets*—a story that doesn’t just push the boundaries of indie action cinema but also carries emotional weight and cultural relevance. This is a film about choices, consequences, and survival, and we’re proud to help bring such a powerful narrative to life.”

Armstrong: Dark Secrets is more than a sequel — it’s a cultural moment that challenges loyalty, betrayal, and survival at the highest stakes. Mark your calendars for Friday, September 19, 2025, on Amazon Prime, and witness the next chapter of an indie phenomenon.
