Heavy Construction Equipment Market Outlook 2030: Valuation to Reach \$273.5 Billion | AMR

WILMINGTON, DE, UNITED STATES, September 9, 2025 /EINPresswire.com/ -- According to the report published by Allied Market Research, the global [heavy construction equipment market](#) was estimated at \$176.2 billion in 2020 and is expected to hit \$273.5 billion by 2030, registering a CAGR of 4.4% from 2021 to 2030. The report provides an in-depth analysis of the top investment pockets, top winning strategies, drivers & opportunities, market size & estimations, competitive scenario, and wavering market trends.

Surge in investment in the construction sector, rise in focus on public-private partnerships, and growth in emphasis on the expansion of the mining sector drive the growth of the global bone densitometers market. On the other hand, increase in carbon footprints, fluctuating oil prices, and weak economic conditions in Latin America impede the growth to some extent. However, development of low emission, fuel-efficient equipment is expected to create lucrative opportunities in the industry.

The heavy construction equipment market is segmented into equipment type, which includes material handling equipment, heavy construction vehicles, earthmoving and others. Among these, the earthmoving equipment segment accounts for the largest market size by value, owing to low operating costs and rising demand from diverse sectors such as building and construction, infrastructure, mining, oil & gas and forestry.

Covid-19 Scenario-

The ongoing lockdown measures, especially during the initial phase of the pandemic, gave way to delay in production and manufacturing of heavy construction equipment which are utilized in several end-user industries such as oil & gas, construction, infrastructure, and others. This, in turn, impacted the market negatively.

However, the market is projected to get back on track soon.

The global heavy construction equipment market is analyzed across equipment type, end user, application, and region.

Based on type, the earthmoving equipment segment held the major share in 2020, garnering more than half of the total market. The material handling equipment segment, however, would cite the fastest CAGR of 6.0% during the forecast period.

By end-use industry, the construction segment accounted for more than two-fifths of the total market revenue in 2020, and is anticipated to retain its dominance by 2030. The manufacturing segment, on the other hand, would grow at the fastest CAGR of 5.3% from 2021 to 2030.

Based on region, the market across Asia-Pacific contributed to the major share in 2020, holding more than two-fifths of the global market. The same region would also grow at the fastest CAGR of 5.2% from 2021 to 2030.

Heavy Construction Equipment Market Report Highlights

By EQUIPMENT TYPE

Earthmoving Equipment

Material Handling Equipment

Heavy Construction Vehicles

Others

By END USER

Infrastructure

Construction

Mining

Oil & Gas

Manufacturing

Others

By APPLICATION

Excavation & Demolition

Heavy Lifting

Tunneling

Material Handling

Recycling & Waste Management

By Region

North America (U.S., Canada, Mexico)

Europe (Germany, UK, France, Italy, Rest of Europe)

Asia-Pacific (China, India, Japan, South Korea, Rest of Asia-Pacific)

LAMEA (Latin America, Middle East, Africa)

Leading Players:

The key market players analyzed in the global heavy construction equipment market report include CNH Industrial N.V., Deere & Company, Doosan Infracore Co Ltd., J C Bamford Excavators Ltd., Caterpillar Inc., Komatsu Ltd., Liebherr International AG, Volvo Group, XCMG Group, and Hitachi Construction Machinery Co. Ltd. These market players have incorporated several strategies including partnership, expansion, collaboration, joint ventures, and others to brace their stand in the industry.

About US:

Allied Market Research (AMR) is a full-service market research and business-consulting wing of Allied Analytics LLP based in Wilmington, Delaware. Allied Market Research provides global enterprises as well as medium and small businesses with unmatched quality of "Market Research Reports Insights" and "Business Intelligence Solutions." AMR has a targeted view to provide business insights and consulting to assist its clients to make strategic business decisions and achieve sustainable growth in their respective market domain.

We are in professional corporate relations with various companies and this helps us in digging out market data that helps us generate accurate research data tables and confirms utmost accuracy in our market forecasting. Allied Market Research CEO Pawan Kumar is instrumental in inspiring and encouraging everyone associated with the company to maintain high quality of data and help clients in every way possible to achieve success. Each and every data presented in the reports published by us is extracted through primary interviews with top officials from leading companies of domain concerned. Our secondary data procurement methodology includes deep online and offline research and discussion with knowledgeable professionals and analysts in the industry.
