

# Chartered Institute Debuts GIS Certification to Combat Rising Environmental Threats

*Chartered Institute of Professional Certifications Launches CGIS™ Program for Environmental Monitoring, Impact Analysis, and Risk Assessment Leaders*

SINGAPORE, SINGAPORE, September 22, 2025 /EINPresswire.com/ -- The [Chartered Institute of Professional Certifications](https://www.charteredcertifications.com) ([www.charteredcertifications.com](https://www.charteredcertifications.com)), a global provider of high-caliber executive programs, is proud to announce the launch of the Certified Geographic Information Systems (GIS) for Environmental Impact, Monitoring and Risk Assessment (CGIS™) program. Developed in collaboration with leading GIS specialists, environmental scientists, and policy experts, this certification is designed to empower professionals with advanced skills to leverage GIS technology for environmental sustainability and risk management.

Chartered Institute of Professional Certifications

The CGIS™ curriculum delivers a comprehensive learning pathway covering essential GIS applications in environmental monitoring, impact assessment, climate risk analysis, and spatial decision-making. Participants will explore topics such as geospatial data acquisition and analysis, remote sensing integration, environmental impact modeling, hazard mapping, and multi-criteria risk assessment frameworks. Through hands-on labs and applied case studies, participants will gain the expertise to translate geospatial insights into actionable strategies that support compliance, sustainability, and resilience objectives.

"In today's era of rapid climate change, biodiversity loss, and rising environmental risks, GIS has become an indispensable tool for monitoring, assessment, and informed decision-making," remarked Bok Yan Lo, Managing Director of the Chartered Institute of Professional Certifications. "The CGIS™ program equips professionals with the ability to harness geospatial intelligence to identify risks, mitigate impacts, and contribute to sustainable environmental stewardship."

The CGIS™ program equips professionals with the ability to harness geospatial intelligence to identify risks, mitigate impacts, and contribute to sustainable environmental stewardship.”

*Bok Yan Lo*

The CGIS™ program, fully endorsed by the Chartered Institute of Professional Certifications, is structured for maximum learning flexibility through [live](#) instructor-led sessions.

Upon successful completion of the CGIS™ program, participants will be awarded the Certified Geographic Information Systems (CGIS™) designation, a globally recognized credential affirming their expertise in applying GIS for environmental monitoring, impact analysis, and risk

assessment. In addition, the program holds independent accreditation and certification by CPD, meeting the highest standards of Continuing Professional Development.

For more information about the CGIS™ program and to enroll, please visit the link below:
