

# Runwago Announces Official \$RUNWAGO launch, app available on the App Store and Google Play, supported by GARMIN

*Trending worldwide: Runwago redefines SportFi with sustainable Running app. TGE coming September 18, 2025.*

WASHINGTON, WA, UNITED STATES, September 14, 2025 / EINPresswire.com/ -- A true breakthrough has just arrived in the Web3 world. [Runwago](#), the first 100% sustainable Run-to-Earn app, is now available for download on both the [App Store](#) and Google Play. Within just a few days, the app has become a trending hit in multiple countries.

Backed by strong partners, leading VCs, and supported by GARMIN, the project is on its way to a major milestone: the Token Generation Event (\$RUNWAGO) scheduled for September 18th, 2025.

## A Revolution in SportFi: Simple, Sustainable, Scalable

Runwago is built on a principle that hundreds of millions of runners already know: challenges. Users pick their running goal, stake \$RUNWAGO tokens, and if they complete it, they get 100% of their deposit back. If they fail, their stake is redistributed to successful runners. Winners are rewarded, losers pay the price. Simple, fair, and above all, 100% sustainable.

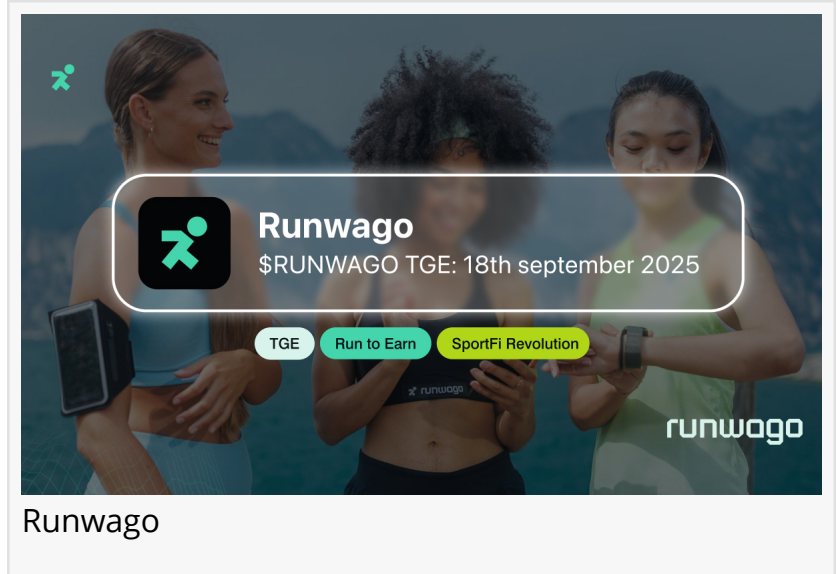

## Why Runwago Has massive upside potential

Projects like Stepn and Step App reached multi-billion valuations, despite relying on unsustainable models.

\$RUNWAGO token will launch at a market cap of just \$351k, designed during the bear market to ensure ultra-strong tokenomics.

Unlike GameFi, Runwago taps into an existing community – runners. Today, over 300 million people run daily worldwide.

## Technology and Community Driving Success

Referral system inspired by Duolingo is already bringing in new users daily.  
Star Mode keeps runners engaged even after failed challenges.  
Anti-cheat system developed by [CleevioX](#) under Moon5 Labs ensures fair play by detecting suspicious activity such as cars, bikes, or rollerblades.  
The first presale round (\$600k) sold out in minutes.

#### What's Next: AR, FIAT Integration & Real Revenue Sharing

Runwago's roadmap doesn't stop here. Version 2 will introduce FIAT support for challenges and transform \$RUNWAGO into an RWA token with real revenue-sharing for holders.  
The team has also announced future AR support, anticipating a new era of running experiences once AR glasses from META, Google, and others hit the mainstream.

#### Runwago Has Arrived – and It's Just the Beginning

Runwago is not just another Web3 project—it's a real revenue-generating business from day one. With Garmin's backing, a global community of runners, and cutting-edge technology, the app is positioned to become the dominant force in SportFi.

□ Save the date: TGE on September 18th, 2025.

□ Runwago is available for download now on App Store and Google Play.
