

Dr. Mohana Rao Patibandla (Dr Rao) Inspires at TEDx Mumbai 2025 with 'A Journey to Bring Healing Home'

Dr. Mohana Rao Patibandla (Dr Rao), India's top neurosurgeon, shares his inspiring journey and vision for accessible brain & spine care at TEDx Mumbai 2025.

GUNTUR, ANDHRA PRADESH, INDIA, September 12, 2025 /EINPresswire.com/ -- Dr. Mohana Rao Patibandla, founder of Dr. Rao's Hospital and widely acclaimed as [India's best minimally invasive neurosurgeon and spine surgeon](#), delivered a moving and powerful talk titled "My Journey to Bring Healing Home" at TEDx Mumbai 2025, as reported by DNA India in its People section.

From Humble Beginnings to Global Neurosurgical Leadership

Dr. Rao spoke about his roots in the small town of Bhimavaram, Andhra Pradesh, where limited access to modern medicine inspired his lifelong mission to revolutionize neurocare in India. He vividly traced his path from local beginnings to advanced clinical training in the U.S., including at the University of Virginia and University of Colorado Denver, and ultimately to founding Dr. Rao's Hospital in Guntur.

TEDx Mumbai 2025: A Platform for Purpose and Innovation

On August 3, 2025, TEDx Mumbai audiences were moved by Dr. Patibandla's message of "bringing healing home"—not just through surgeries, but by scattering seeds of hope, accessibility, and medical advancement across underserved communities.

A Visionary in [Keyhole and Minimally Invasive Neurosurgery](#)

Dr Rao the best stereotactic radiosurgeon in India, Guntur

As the founder and chief neurosurgeon of Dr. Rao's Hospital, Dr. Rao has spearheaded the adoption of breakthrough technologies, including BrainPath, AI-augmented neuronavigation, and minimally invasive keyhole procedures, bringing world-class neurocare to southern India.

Advocating Care That Reflects Compassion and Equity

At the core of Dr. Patibandla's philosophy lies a firm belief: advanced neurosurgical care should be rooted in both precision and empathy. In his

TEDx talk, he urged future clinicians to embrace technological innovation without sacrificing human connection—a sentiment echoed in the DNA India coverage.

“

Branding healing is not about fame—it's about authenticity, compassion, and precision. My mission is to bring world-class brain and spine care home to every patient.”
