Award winning horror theme park Sir Henry's Haunted Trail is back again for their 12th Halloween seasonal event, running September through November on select dates in 2025. The Florida haunted attraction, which is also a 501(c)3, is located between Tampa and Orlando, sells tickets ranging from \$27 to \$57 per night, with a season pass (no black out dates) priced at \$175.

The attraction features interactive characters in the common area, three highly themed haunted trails, escape games, and a common area show. Concessions and special merchandise will also be on sale, as well as upgrades for the hayride. Tickets are on sale in advance online, with each tier of ticket described for visitors.

"It's so fun to combine the influences of history and legend in this season's event," says Zach Glaros, the owner of the attraction. "I don't think anyone is prepared for the changes we have for our hayride, the trails, and the upgrades to our common area show. I definitely recommend fans get at least the all access ticket, so they can experience all of the trails and the hayride."

Sir Henry's Haunted Trail

Sir Henry's proudly holds a spot on the [USA Today](#) 10 Best list for the top ten haunted attractions in America for 2024, earned from prestigious judge recognition and won by fan votes. Securing the number five spot, the attraction is up again, nominated for the same award for 2025.

TRAIL 1 - CITY OF SLAUGHTER - STORY:

At the turn of the 20th century, America is in the heart of the second industrial revolution. In Chicago, the city has become notorious for crime, slayings and corruption. During this time, a prominent factory leader named William Howard has taken a dark borough under his control. His thirst for power and blood has spilled over from his meat packing factory into the city. Terrorizing the streets, he murders in cold blood while using the victims' bodies as material in his meat factory. He pays off the cops and controls city leaders with both fear and brutality. The city has nicknamed him Bill the Butcher.

TRAIL 2 - RAVENSGATE ASYLUM - STORY: In the early 1900s, the local prisons were almost filled to maximum capacity. To make more room, many of the worst cases were moved to Ravensgate Asylum under the care of Dr. Strauss. With an influx of patients at his disposal, the doctor began to perform experiments, believing he could remove the evil impulses from their minds. But he quickly discovered they only became more evil with his trials. Dr. Strauss himself went mad in the process and became the very evil he wanted to rid the patients of. Will you escape the madness

of the asylum, or will evil overcome you?

TRAIL 3 - SKINWALKER'S HEX - STORY: Following the events of the murders in the Deadwood Mines, a new gold mining company has moved into the territory. After a few weeks, rumors circulate about shapeshifting creatures lurking in the shadows. Men begin to disappear, some are never seen again, and others are found with their abdominal cavities gorged out and eaten. But the gold is too abundant, so the prospectors continue their excavation. The terror spills out

from the mines and into the nearby town. Demon coyotes and other animals transform into frightening entities, devouring miners and townsfolk. Beware as you walk through these mines. One look in the eye, and your fate is sealed.

Sir Henry's Haunted Trail is family friendly, with parental guidance suggested for those under 12.
