

InAmerica Students Exceed Expectations Amid Record-Low Acceptance Rates, Securing Top University Offers Worldwide

Admission to top global universities and major scholarships reflect the impact of InAmerica's personalized admissions guidance in a record-breaking year.

NEW YORK, NY, UNITED STATES, September 10, 2025 /EINPresswire.com/ -- [InAmerica Education](#), a top admissions consulting firm founded in 2013, is proud to announce another year of remarkable success in the 2024–2025 college admissions cycle. Students guided by InAmerica have earned acceptances to some of the most prestigious universities in the world, including Harvard University, Stanford University, Columbia University, the University of Pennsylvania, UC Berkeley, UCLA, the University of Chicago, Northwestern University, Carnegie Mellon University, Emory University, New York University Stern, and USC Marshall School of Business, among many others.

These results reflect the power of InAmerica's personalized approach to admissions guidance. Despite record-low national acceptance rates—for instance, Harvard's ~3.6% and Columbia's ~3.9%—students guided by InAmerica consistently exceeded expectations. Nearly one-third of InAmerica students were admitted to U.S. News Top 10 National Universities, a testament to the strength of their preparation and the effectiveness of InAmerica's tailored strategies. Aside from success in American university admissions, InAmerica's students also earned admission to internationally renowned universities such as the University of St. Andrews and the University of Edinburgh in the UK, and the University of Toronto in Canada.

In addition to gaining entry into the most competitive institutions, many students were awarded significant merit scholarships, further underscoring the caliber of their achievements. Notable offers include \$32,000 from Case Western Reserve University and \$35,000 from Brandeis University, among several others. These awards not only ease the financial burden of higher education for families but also serve as powerful recognition of the students' academic excellence, leadership, and potential to contribute meaningfully to their future academic environment. The scholarships highlight the dual impact of InAmerica Education's approach, ensuring both access to top-tier universities and acknowledgment of each student's unique strengths through substantial financial support.

This year's results highlight the value of professional mentorship. At InAmerica, the team of expert consultants works one-on-one with students to help them discover their strengths, refine

their personal narratives, and build well-rounded applications that stand out in an increasingly competitive landscape. From strategic course planning and extracurricular development to compelling essays and interview preparation, each student is guided to present the best version of themselves.

As families continue to navigate the complexities of the admissions process, InAmerica remains committed to empowering students to achieve their academic and professional dreams. These record-breaking results reaffirm the organization's mission: to help every student unlock their full potential and secure admission to the schools where they will thrive.
