

Bigwave Robotics Unveils Global RaaS Platform 'Marosol,' Accelerating Worldwide Expansion

The global Marosol platform offers end-to-end robotics solutions, curated industry insights, and practical automation case studies.

SEOUL, SOUTH KOREA, September 12, 2025 /EINPresswire.com/ -- [Bigwave Robotics](#), a leading robotics automation company headquartered in Korea, has officially launched its global Robot-as-a-Service (RaaS) platform, "[Marosol](#)."

This milestone marks a pivotal step in Bigwave Robotics' international growth strategy, as the company brings its proven expertise in industrial and service robotics—as well as tailored automation consulting—to customers around the world.

“

Our mission is to deliver trusted, all-in-one robotics solutions to global customers, built on years of proven success in Korea,”

Min-Kyo Kim, CEO of Bigwave Robotics

Through the Marosol platform, global clients gain access to a full spectrum of robotic solutions, including industrial robots, collaborative robots, logistics robots, cleaning robots, and humanoid robots. Beyond product information and consultation, the platform offers end-to-end automation services—from initial assessment and system design to full-scale deployment—alongside curated insights into emerging robotics trends and specialized case studies.

As part of the launch, Bigwave Robotics is introducing its proprietary multi-robot integration system, '[SOLink](#),' to the global market. SOLink enables centralized monitoring and control of diverse robot fleets across industrial and commercial environments. The system has already demonstrated its effectiveness in major Korean facilities, including global corporations and public institutions such as Samsung Electronics and Incheon International Airport.

“Our mission is to deliver trusted, all-in-one robotics solutions to global customers, built on years

of proven success in Korea,” said Minkyoo Kim, CEO of Bigwave Robotics. “Beginning with North America, we will strategically expand our footprint across Europe, Asia, and beyond.”

The screenshot displays the Marosol Global Platform website. At the top, the Marosol logo is on the left, a search bar with the text "What are you looking for?" is in the center, and a "Login" link is on the right. Below the header, the "Service Robot Use Cases" section features four cards: "Incheon Airport's Industrial Cleaning Robot Review...", "The SC50 industrial cleaning robot, which even cl...", "A medication delivery robot that rides an elevator...", and "Three LG CLOi guide robots will accompany patients...". Each card includes a small image and a list of hashtags. A "More +" button is located below these cards. The "Manufacturing Robot Use Cases" section follows, showing four images of industrial robots. Below the website screenshot, the text "Marosol Global Platform – Robotics Automation Case Studies" is displayed. Further down, a large banner image shows a robotic arm in a factory setting with the text "Robotics Automation Made Easy" and "Marosol delivers end-to-end robotics solutions - making integration simple and seamless." The Marosol logo is at the bottom of the banner. Below the banner, the text "Marosol Global Platform – Service Overview" is shown.
