

Snow Park by Kris Lin Wins Platinum in A' Interior Design Awards

Kris Lin's Innovative Exhibition Center Design Recognized with Prestigious A' Design Award in Interior Space and Exhibition Design Category

COMO, CO, ITALY, September 15, 2025 /EINPresswire.com/ -- The A' [Design Award](#), one of the world's most respected design competitions, has announced [Kris Lin](#) as a winner of the Platinum A' Design Award in the [Interior Space and Exhibition Design](#) category for the innovative "Snow Park" exhibition center design. This prestigious recognition highlights the exceptional creativity and technical proficiency demonstrated by Kris Lin in crafting a landmark space that seamlessly blends technology, culture, and commercial value within the interior design industry.

Snow Park

The Platinum A' Interior Space, Retail and Exhibition Design Award celebrates designs that not only showcase remarkable innovation but also contribute significantly to advancing industry standards and practices. Kris Lin's "Snow Park" exhibition center exemplifies these qualities, offering a unique and immersive experience that aligns with current trends in interior design while providing practical benefits for users and stakeholders alike.

Inspired by a documentary about a Chinese explorer's glacier expedition, "Snow Park" creates six themed scenes: Ice Lake, Ice Tunnel, Ice Cave, Ice Light, Ice Cone, and Ice House. Through the innovative use of materials like Glass Fiber Reinforced Gypsum and Ice Jade Stone, combined with holographic projections and immersive technology, the design overcomes spatial constraints to deliver a surreal and engaging experience that enhances both functionality and artistic appeal.

This recognition from the A' Design Award serves as a testament to Kris Lin's commitment to pushing the boundaries of interior design and inspiring future innovations within the field. By seamlessly transitioning from an exhibition center to a commercial space, "Snow Park" demonstrates the potential for interior design to deliver lasting economic and cultural value while driving the rise of ice and snow tourism in southern China.
