Market Drivers & Opportunities:

- Rising standard of living and growing demand for visually appealing, durable wood products.
- Expanding construction and renovation activities, fueling demand across residential and commercial projects.
- Increasing adoption of radiation cure coatings, creating new avenues for growth.

However, fluctuating raw material prices are expected to pose a challenge for market expansion.

Segmental Highlights

By Resin Type:

- Polyurethane dominated in 2021, accounting for nearly two-fifths of the market share.
- Acrylic is anticipated to register the fastest growth with a CAGR of 6.7% through 2031.

By Technology:

- Conventional solid solvent-borne coatings held the largest share in 2021 (around one-third).
- Waterborne coatings are expected to grow the fastest at a CAGR of 7.1% during the forecast period.

By Application:

- Furniture led the market in 2021, contributing nearly three-fifths of total demand.
- Joinery is expected to record the fastest CAGR of 6.7% through 2031.
