The popularity of vegan diets as a lifestyle choice is growing tremendously among consumers owing to health, environmental, and ethical reasons. As a result, dairy-alternative table sauces produced using plant-based ingredients has gained tremendous popularity. Consumers look for specific functions in these food products that enable to make it a part of their lifestyle such as energy boosting, protein supplement and on-the-go snack. These factors are anticipated to collectively contribute toward the growth of table sauce market trends.

The market growth is propelled by the inclination towards healthy food products that offer healthfulness. Table sauces offer a portable, convenient, and inventive way to consume on-the-go healthy food products, generally with premium, indulgent and exotic products. Table sauces refer to a preparation that is added to food, typically after cooking, to impart a specific flavour, to

enhance the flavour, or to complement the dish. Certain sauces are using prior to serving while some are used during cooking. They have become a part of the daily diet across countries, hence generating high their demand.

Globalization and increase in travel have persuaded people to experience new tastes and cultures. This cross-cultural interaction has led to a widespread adoption of foreign foods and table sauces, especially in the emerging countries, which acts as one of the major driving forces of the sauces industry. Furthermore, with growing health consciousness among consumers, the demand for “clean”, “free from” and “natural” table sauces has gained high traction. Manufacturers are thereby introducing table sauces using natural ingredients that are minimally processed. Furthermore, the popularity of vegan diets as a lifestyle choice is growing tremendously among consumers owing to health, environmental, and ethical reasons. As a result, plant-based table sauces are gaining substantial recognition. This offers great potential and opportunity for manufacturers to introduce novel table sauces for market growth and expansion.

The report offers detailed segmentation of the global Table Sauce Market based on type, packaging form, distribution channel, and region.

Based on region, Asia-Pacific contributed to the highest share in terms of revenue in 2020, holding two-fifths of the total market share, and is estimated to continue its dominant share by 2030. Moreover, North America is projected to manifest the fastest CAGR of 6.5% during the forecast period. Other regions discussed in the report include Europe and LAMEA.
