Following the success of its inaugural class, the school is now preparing to launch its next 12-week dental assistant program during September.

TERRE HAUTE, IN, UNITED STATES, September 16, 2025 / EINPresswire.com/ -- Terre Haute Dental Assistant School officially opened its doors in June 2025, bringing new career opportunities to aspiring dental professionals in Terre Haute, Indiana. Following the success of its inaugural class, the school is now preparing to launch its next 12-week dental assistant program during September.

Conveniently located at 2510 Hulman St, Terre Haute, IN 47803, the school provides students with a hands-on education in a real dental office setting. The program is designed to prepare graduates with the skills and certification needed to work confidently alongside dental professionals in their community.

"Our program will help local healthcare employers better serve their communities, while allowing students to graduate debt-free and begin a career in the dental field," said Karen Morgan, Terre Haute Dental Assistant School Program Manager.

Terre Haute's newest dental assistant school prepares students to work alongside other professionals in the dental field, through a curriculum that helps students graduate debt-free in 12 weeks. Students participate in onsite, hands-on labs through a local dental partner clinic. They conclude the certification with an 80-hour externship, one that allows learners to work under the direct guidance of experienced dental professionals in Indiana.
