

Healthcare Interoperability Solutions Market Size (USD 21.54 Billion by 2030) Achieves Record-breaking Growth

PORTLAND, OR, UNITED STATES, September 15, 2025 / EINPresswire.com/ -- According to the report published by Allied Market Research, the global healthcare interoperability solutions market generated \$5.32 billion in 2020, and is projected to reach \$21.54 billion by 2030, witnessing a CAGR of 14.9% from 2021 to 2030. The report provides a detailed analysis of the top investment pockets, top winning strategies, drivers & opportunities, market size & estimations, competitive landscape,

Healthcare Interoperability Solutions Industry 2025

and evolving market trends. The market study is a helpful source of information for the frontrunners, new entrants, investors, and shareholders in crafting strategies for the future and heightening their position in the market.

Covid-19 Scenario:

- During the Covid-19 pandemic, the demand for healthcare interoperability solutions increased to keep healthcare records for keeping accurate patient information, linking patient records, and ensuring interoperability and cyber security.
- However, there has been a slight negative impact on the market as the focus from costintensive and long-term projects such as healthcare interoperability solutions shifted to other services such as patient access management and others.

Adoption of cloud technology related to healthcare services and implementation of various healthcare reforms such as Patient Protection and Affordable Care Act (PPACA) drive the growth of the global healthcare interoperability solutions market. However, concerns regarding patient

data safety & security restrain the market growth. On the other hand, surge in investments in the Asia-Pacific region creates new opportunities in the coming years.
