

# Wolf River Electric Urges Homeowners to Act Before 2025 Solar Tax Credit Deadline

*It is the Last Chance for Residential Solar to Qualify for the 30% Tax Credit*

ISANTI, MN, UNITED STATES, September 16, 2025 / EINPresswire.com/ -- Wolf River Electric, a [leader in residential and commercial solar installation](#), is urging homeowners to act now to secure their spot for solar installation before the federal 30% Investment Tax Credit (ITC) expires. To qualify, solar systems must be fully installed by December 31, 2025—and with planning, permitting, and installation timelines, appointments are already filling fast.

Time is running out. Homeowners across Minnesota, Wisconsin, Iowa, North Dakota, and South Dakota who delay may miss the opportunity to lock in this significant federal incentive for solar energy.

“Energy prices continue to rise, and solar offers a smart way to control costs while reducing environmental impact,” said Vladimir Marchenko, CEO of Wolf River Electric. “But with the ITC deadline approaching, it’s critical for homeowners to get on the schedule now to ensure they don’t miss out.”

Wolf River Electric provides a free online estimate tool where homeowners can quickly calculate

potential savings, factoring in location, utility provider, electricity use, and available incentives. The tool helps estimate both costs and long-term benefits of going solar with or without battery storage.

With over ten years of experience, Wolf River Electric has built a reputation for delivering high-quality, full-service solar solutions. Backed by a 25-year workmanship warranty, the company combines grassroots passion with industry expertise to make clean energy accessible, affordable, and reliable. Their professional advisors also provide information to customers regarding the process of securing all available local, state, and federal incentives, rebates, and tax credits to maximize savings.

WRE Saves Homeowners Money

“

Energy prices continue to rise. Solar offers a smart way to control costs. But with the ITC deadline approaching, it's critical for homeowners to get on the schedule now to ensure they don't miss out.”

*Vladimir Marchenko, CEO of  
Wolf River Electric*

Founded by a team of close friends with a shared vision for a sustainable future, Wolf River Electric has grown into one of the region's most trusted solar providers. From residential rooftops to large-scale commercial projects, the company is committed to transforming the energy landscape one installation at a time.

Wolf River Electric offers [best-in-class panels, battery solutions for backup and energy storage](#), and customer-focused service designed to simplify the transition to renewable energy.
