The Best of Orlando awards, presented annually, spotlight standout businesses across Central Florida based on community voting and editorial review. For Blue Daze Designs, the award highlights more than two decades of delivering exceptional concierge design services — from new-build projects and remodels to whole-home furnishings — with a reputation for bold, creative, color-rich spaces that reflect each client's individual aesthetic.

“Winning this award is deeply meaningful because it shows the trust and connection we've built with the Central Florida community over the years,” says Cathy Sands, Founder and Design Principal of Blue Daze Designs. “For more than 20 years, our mission has been to transform living spaces into personal sanctuaries that truly reflect the essence of the people who live in them. We believe this recognition affirms that we're making a difference in people's lives, one project at a time.”

Blue Daze is known for combining rich colors, modern forms and layered textures. The firm has

established a reputation for artistic, creative and elevated interiors. “Design is about more than just selecting finishes or arranging furniture — it’s about telling each client’s unique story,” Sands adds. “Every home we design is a collaboration that blends our expertise with the client’s lifestyle, aesthetic and personality, so the finished space ultimately feels uniquely theirs.”

The Orlando market presents unprecedented opportunities for interior design. According to a RentCafe analysis of IPUMS data, the number of millionaire households in Orlando skyrocketed from just 54 in 2019 to 1,098 in 2023. Moreover, data from the Internal Revenue Service shows that the number of tax filers in Florida earning at least \$1 million rose by 8% from 2021 to 2022, signaling a strong influx of affluent residents to the state. For high-income households, custom interior design services are highly sought after.
