

# Eave by HDL Automation Co., Ltd. Wins Platinum in A' Electronics Industry Awards

*HDL Automation's Eave Control Terminal Recognized for Exceptional Design and Innovation in Consumer Electronics*

COMO, CO, ITALY, September 17, 2025

/EINPresswire.com/ -- The A' Design Award, a highly respected and well-recognized award in the field of [consumer electronics](#) design, has announced HDL Automation Co., Ltd. as a winner in the Digital and Electronic Device Design category for their exceptional work titled "Eave." This prestigious recognition highlights the significance of the Eave control terminal within the consumer electronics industry, positioning it as a groundbreaking and innovative design solution.

The Eave control terminal's award-winning design showcases its relevance to current trends and needs within the consumer electronics sector. By seamlessly integrating traditional aesthetics with modern technology, Eave aligns with industry standards while offering practical benefits to users, such as enhanced comfort, convenience, and security. This recognition underscores the importance of innovative design in advancing the consumer electronics landscape.

Eave stands out in the market through its unique fusion of Jiangnan water town-inspired aesthetics and cutting-edge smart home functionality. The control terminal's graceful eave lines and delicate water flow symbolism pay homage to traditional Chinese architecture while incorporating intuitive lighting feedback and multiple control methods. The inclusion of an elderly care mode further demonstrates HDL Automation's commitment to inclusive and user-centric design.

A' DESIGN AWARD  
& COMPETITION

AWARD WINNING DESIGN  
PLATINUM A' DESIGN AWARD 2025

Eave

Winning the Platinum A' Design Award serves as a testament to HDL Automation's dedication to excellence and innovation. This recognition is expected to inspire future projects and drive the company to continue pushing the boundaries of consumer electronics design. By setting new standards in aesthetics, functionality, and user experience, Eave has the potential to influence industry trends and foster further advancements in the field.

Eave was designed by a talented team at HDL Automation Co., Ltd., including Jin Huang, Wenbin Chen, Daying Gao, Dongchang Li, and Xiujuan Chen, who each contributed their expertise to bring this innovative control terminal to life.

About HDL Automation Co., Ltd.

HDL Automation is a leading global provider of smart living solutions, founded by a visionary university professor who developed the first Chinese digital dimming controller in the 1980s. With a presence in over 106 countries and regions, HDL Automation caters to the needs of five hundred thousand discerning smart home enthusiasts worldwide. The company's mission is to create healthy living spaces by infusing everyday environments with innovative technology, enhancing well-being and making homes smarter and healthier places to thrive.

About Platinum A' Design Award

The Platinum A' Design Award honors designs that exemplify exceptional creativity and innovation. As the highest accolade bestowed by the A' [Design Awards](#), it recognizes works that seamlessly blend remarkable innovation with impactful societal contributions. Recipients of this award are celebrated for their role in shaping the aesthetics and trends of our time, contributing to the enhancement of quality of life and promoting sustainable development. The rigorous selection process involves blind peer review by an expert jury panel of design professionals, consumer electronics industry experts, journalists, and academics, who evaluate entries based on pre-established criteria.

About A' Design Award

The A' Design Award is an international and juried design competition that has been recognizing and promoting superior products and projects since 2008. Now in its 17th year, the competition spans all industries and welcomes entries from countries worldwide. By participating in the A' Design Award for Consumer Electronics, entrants have the opportunity to showcase their ingenuity, gain global visibility, and be acknowledged for their exceptional design capabilities. Winning an A' Design Award provides a platform for receiving international recognition and increased status within the competitive consumer electronics industry. Ultimately, the A' Design Award aims to make the world a better place by motivating designers and brands to develop superior products that positively impact society.
