

# Cape Crystal Brands Launches Free Recipe Calculators to Support GLP-1 Dieters and Fall Bakers

*Cape Crystal Brands' free online tools help home cooks and chefs scale recipes, bake smarter, and achieve perfect results every time.*

SUMMIT, NJ, UNITED STATES,

September 17, 2025 /

EINPresswire.com/ -- Cape Crystal Brands, a leader in food science and specialty ingredients, today announced the release of its expanded suite of free online food calculators, designed to help home cooks, bakers, and professional chefs achieve consistent results in the kitchen. The launch comes at a time when GLP-1 medications like Ozempic and Wegovy are changing how Americans eat — focusing on smaller portions, protein balance, and nutrient-dense meals — while fall baking season is in full swing.

“

Cooking trends may change, but food science is timeless. Our free calculators make it easy for anyone — from home cooks to professional chefs — to get consistent, delicious results with confidence.”

*Edmund McCormick*

## Cooking for Today's Trends

**GLP-1 Diet Friendly:** With many Americans seeking to scale down recipes for smaller portions, Cape Crystal's Recipe Units [Calculator](#) makes it simple to convert between metric, imperial, and common kitchen units — ensuring balanced flavor without waste.

**Better Baking Results:** The Gel Strength & Bloom Calculator helps bakers adjust gelling ratios for pies, pumpkin desserts, jams, and jellies, delivering professional-quality consistency every time.

“Food trends like the GLP-1 diet show how quickly Americans’ cooking habits can change,” said Edmund McCormick, Founder of Cape Crystal Brands. “Our mission is to provide free, science-based tools that make cooking easier, healthier, and more reliable — whether you’re scaling down for one or baking pies for the whole family.”

## A Growing Library of Free Tools

Cape Crystal’s free calculator suite now includes:

Recipe Units Calculator – Convert between metric, imperial, and common kitchen units with ease.

Ice Cream Stabilizer Calculator – Achieve perfect texture with customized stabilizer ratios.

Sauce & Soup Thickening Calculator – Get the right consistency for gravies, soups, and sauces.

Gel Strength & Bloom Calculator – Ensure precise texture in desserts and confections.

Emulsion Ratio Calculator – Balance oil and water for stable dressings and sauces.

Spherification Ratio Calculator – Perfect your molecular gastronomy creations.

Hydrocolloid Usage Calculator – Apply exact ratios for gums, pectins, and stabilizers.

Hydrocolloid Compatibility Calculator – Discover how hydrocolloids interact to improve stability.

## Supporting Cooks Everywhere

Cape Crystal Brands’ free food science resources are designed for:

Home cooks who want to scale recipes and reduce waste.

Diet-conscious individuals adjusting meals to fit GLP-1 or plant-based lifestyles.

Chefs and food developers who need precise ratios for professional results.

## Availability

The calculators are free to use on the Cape Crystal Brands website at:
