Certified technicians will be available on-site to provide free inspections and hands-on assistance to ensure child safety seats are properly installed. The Louisiana Highway Safety Commission estimates that 3 out of 4 child restraints in the state are used incorrectly, making proper installation a critical step in keeping children safe while traveling.

While the event's primary purpose is to assist families with car seat installation, limited numbers of child safety seats

are available for Louisiana families in need. To be considered, families must register online at www.umcno.org/childseats. Completion of the form does not guarantee a car seat.

“Every parent wants their child to be safe, and the proper use of car seats saves lives,” said

Gordon McKernan. "We're proud to support this initiative alongside the Sheriff's Office and the Passenger Safety Task Force to help families travel safely."
